LABORATORY.

AND he rushed into the wigwam,
Saw the old Nokomis slowly
Rocking to and fro, and moaning;
Saw his lovely Minnehaha
Lying dead and cold before him;
And his bursting heart within him
Uttered such a cry of anguish
That the forest moaned and shuddered,
That the very stars in heaven
Shook and trembled with his anguish.

DEATH OF MINNEHAHA.

Then he sat down, still and speechless,
On the bed of Minnehaha,
At the feet of Laughing Water.
At those willing feet, that never
More would lightly run to meet him,
Never more would lightly follow.

With both hands his face he covered,
Seven long days and nights he sat there,
As if in a swoon he sat there,
Speechless, motionless, unconscious
Of the daylight or the darkness.

—Longfellow's *Hiawatha*.

CHAMPION COLLEGE OF EMBALMING

Incorporated under the Laws of Ohio.

Most Competent Instructors
No Expense Spared

ALL MODERN METHODS OF EMBALMING THOROUGHLY TAUGHT. MOST COMPLETE EQUIPMENT, AND ADVANCED COURSE OF INSTRUCTION OF ANY INSTITUTION OF THE KIND. FINEST ANATOMICAL MODELS, LIFE SIZE COLORED PHYSIOLOGICAL DIAGRAMS AND OTHER PARAPHERNALIA

29284 *

We solicit the attendance of all Funeral Directors and Embalmers within reach of our schools, and guarantee satisfaction.

If you have never attended any School of Embalming, attend ours. Note the dates, and plan to be present.

Our schools are not only for the beginner, but for the practitioner as well.

In the profession of Embalming, as in other callings, perfection can never be attained. Only he who applies himself most diligently can hope to achieve the highest success.

The progressive physician takes a post-graduate course occasionally in order to keep up with the advancement constantly being made in his profession. It is equally important that the Embalmer should do the same, as new ideas are continually being advanced and new methods discovered.

Do not think because you have a diploma from some other school that we cannot benefit you. We will carry you onward and upward in your profession.

Grasp all the knowledge on the subject that is possible; your work will be made easier in consequence.

We teach and explain the morbid anatomy of the body in a manner easily comprehended by all.

If the Embalmer understands the morbid condition of his subject, and uses the proper means and methods, he will have no failures.

We will demonstrate that the best fluids of to-day are not failures; that they will destroy all germs of contagion, infection and putrefaction, and will preserve all kinds of tissue if properly used.

Special attention will be given to those who wish to prepare for an examination before a State Board of Embalming or State Board of Health.

*

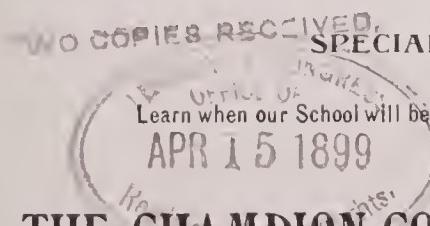

Fee for Course, Including Certificate, \$10.00

Four Days' School at Each Place

Taking in a wider range than any similar Institution. Two Sessions Daily, and an Evening Quiz. Thorough, practical demonstrations will be given on a cadaver, which will be provided for each School.

THE CHAMPION COLLEGE OF EMBALMING, SPRINGFIELD, O.

1\$110 Mar 10. 99.

THE CHAMPION COLLEGE OF EMBALMING

TEACHES, AMONG OTHER THINGS, THE FOLLOWING:

- The methods of determining when life is extinct.
- Location and treatment of the organs and cavities of the body
- Cause and prevention of decomposition.
- Causes of, and how to arrest, purging.
- Causes, and best method for removal, of discoloration.
- Simplest and best methods for removing gases.
- Every successful method for removing blood.
- How to locate and raise the arteries at the different and best points for injection. We simplify the method so that a novice can successfully locate and raise the various arteries.
- How to treat syphilitic ulcerations, bed sores, gangrene, etc.
- Causes of, and how to remove and prevent, swelling of the neck.
- How to destroy the odor and harden cancer.
- How to successfully treat dropsical cases.
- Treatment of multilated and post-mortem cases.
- Successful methods for treating cases of sunstroke, lightning and suffocation.
- Successful method of treating cases of morphine and other poisons.
- Best methods of caring for cases of drowning.
- The dry process for hardening, deodorizing and preserving "floaters."
- The causes and treatment of "skin-slip."
- Causes and treatment of cases of infectious and contagious diseases, such as consumption, pneumonia, typhoid fever, septicaemia, pyaemia, small-pox, cholera, etc.
- Treatment of cases dying from childbirth, peritonitis, etc.
- Treatment of all cases of sudden death from whatever cause.
- Causes of blood clot and how to remove them.**
- The various methods of injecting the vascular system by the different needle processes
- Causes and prevention of mould.
- Relation of bacteriology to putrefaction, infection and contagion.
- Best method of closing the mouth and eyes.
- Special and morbid anatomy.
- Anatomy and physiology of the skin, absorbent and circulatory systems.
- The systemic, pulmonary, portal and foetal circulation.
- How to prepare bodies for transportation.
- The use of disinfectants, antiseptics and deodorizers.
- What the Embalmer needs to properly handle any kind of a case.
- The different methods in vogue of conducting funerals, and the etiquette of same.

IN A WORD, WE TEACH THE BEST METHODS FOR

PRESERVING THE DEAD AND PROTECTING THE LIVING

WHAT OUR HOME UNDERTAKERS SAY OF CHAMPION FLUID.

J. W. COLES
OF WEBB & CO.

REV. W. A. GROSS

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., March 15, 1896.

Gentlemen: We are using Champion Embalming Fluid, and look for nothing better. We have used all the different kinds in many difficult cases and find that the **Champion is the most reliable.** It never gives us any uneasiness in the most complicated cases. Yours truly, WEBB & CO.

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., Feb. 13, 1896.

Gentlemen: We have for a long time used your Champion Fluid with success. We have satisfied ourselves of its merits, and can recommend it to the trade at large.

Yours,

W. A. GROSS & SON.

J. M. BENNETT

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., March 12, 1896.

Gentlemen: Having used your fluid, and having had good success with it, I can recommend it as one of the best fluids on the market. Yours truly, J. M. BENNETT.

CHARLES SCHINDLER

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., April 20, 1896.

CHAMPION CHEMICAL CO.

C, SCHINDLER.

OF SCHINDLER & SNYPP.

JOSEPH C. O'BRIEN

W. H. DICKSON

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., April 20, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your embalming fluid since 1890, giving it some very telling tests in all kinds of weather with utmost success. We cheerfully and heartily recommend Champion. None better. Respectfully yours,

JACOB HOLL & CO.

JACOB HOLL

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., March 13, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Last August, during very hot weather, I embalmed a body with Champion Fluid, held here two days, and then shipped to Atlanta, Ga. It arrived there on Friday, and a church funeral was held on Sunday, and the body viewed by a large number of friends. The body was well preserved, and presented a lifelike and natural appearance. I have used different kinds of fluids, but like Champion best of all.

Yours very truly, W. H. DICKSON.

WILLIAM ROLLER

CHAMPION CHEMICAL CO.

SPRINGFIELD, O., June 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Last week we had three cases which gave Champion Fluid unusually severe tests. The first was that of a prominent educator, who died after a lingering illness of blood poison; the second of a young lady, who died after a brief sickness of meningitis; and the third of a well-known lady who died at a hospital of cancer. "What a beautiful corpse." "How lifelike." "I never saw anything like it." "Looked handsomer than in life." Such were some of the remarks heard at the funerals. In the second case the body had become perfectly black, and in the last it was perfectly yellow. But Champion Fluid sustained its previous reputation as a perfect bleacher, as well as preserver and disinfectant.

Yours sincerely WILLIAM ROLLER,
ASSISTANT TO WEBB & CO.

To The Trade

We take pleasure in presenting you with our latest and most complete Catalogue of everything required by the Embalmer.

There has been a continual demand for Improved Instruments and Sundries used in the art, and we are able to furnish Embalmers with the latest, best and most complete line known to the profession.

Many of the instruments described are our own special production and manufacture, and are guaranteed superior to any hitherto offered to the trade. In fact, the increasing demand for superior goods has stimulated us to engage in their manufacture.

With many thanks for past favors, we courteously solicit a careful perusal of the following pages and a share of your business.

THE CHAMPION
CHEMICAL CO

Springfield, Ohio, September 1, 1896.

Revised 1899 Edition.

The large edition of this Catalogue issued in 1896 was completely exhausted in two years, making a new edition an absolute necessity. We have taken advantage of the opportunity to make some needed revision and to add a number of new and desirable articles to our already unequalled line.

Representing, as it does, "The leading Embalmers' Supply House in America," a title justly claimed and willingly conceded, our Catalogue easily maintains its position as the finest and most complete one ever issued to the Trade.

In this edition the arrangement and paging of the original has been in the main maintained, while articles not in the original edition are indicated by a * before the number.

March 1, 1899.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO

EAST GREENWICH, R. I., Dec. 21, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid for a number of years with splendid success, and can recommend it to those who want a first-class Fluid. Respectfully,

C. G. HILL.

GRAND FORKS, N. DAK., Jan. 18, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: My experience with Champion Embalming Fluid has been very satisfactory, though I have only been using it a very short time. I believe it to be equal to any fluid on the market.

Respectfully,

DON McDONALD.

SAVANNAH, GA., Dec. 24, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Having used your fluid for several years with success, I feel no hesitancy in recommending it to the profession as a most excellent fluid and thoroughly reliable.

Very respectfully, JOHN H. FOX.

PHILADELPHIA, PA., Dec. 12, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion Embalming Fluid for some years and can testify to its merits. It has done for me all you claim for it.

Yours very truly,

JOSEPH CLAYTON.

NEW HAVEN, CONN., Jan. 13, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using your fluid for a number of years. Will say that we have always found it a reliable fluid, and have always had splendid success with it. We think that it is one of the best fluids on the market, and recommend it to all in the trade.

Respectfully yours,

THEO. KEILER & SON.

NEW WINDSOR, MD., Jan. 1, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I am well pleased with the Champion Fluid. It is not so hard on the hands as other fluids and does the work all right. It is a No. 1 bleacher, and as a deodorizer it certainly can't be beat. I shall continue to use the Champion. It will preserve anything that it is applied to.

Respectfully yours,

CHARLES P. BAILE.

NEW ORLEANS, LA., Nov. 25, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I take pleasure in expressing the satisfaction I derived from the use of your Fluid. In my business I average about four hundred cases per year, and the fact of my never having had a failure through the use of your Champion Fluid justifies me in recommending it as being the most perfect Fluid I ever used.

Yours truly,
G. A. BRADBURN,
Embalmer for P. J. McMahon.

JANESVILLE, WIS., Jan. 13, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid and have had splendid success with it, and from my experience with it I can recommend it as being a first-class Fluid.

Yours truly,

FRANK D. KIMBALL.

C. G. HILL

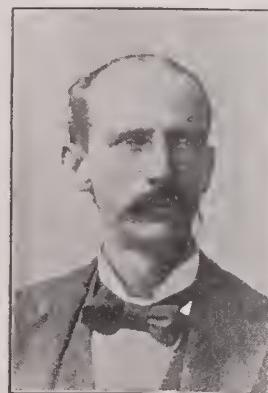

DON McDONALD

JOHN H. FOX

JOSEPH CLAYTON

THEO. KEILER

G. A. BRADBURN

FRANK D. KIMBALL

IGHTEEN YEARS AGO we began to compound **Champion Embalming Fluid**, and in all this time it has been our constant study to make the best. That we have succeeded in our endeavor is attested by our continually increasing trade.

Champion is Up to Date.

The result of our ceaseless, watchful care and practical experience is embraced in this Fluid. **There is no better Fluid made than Champion.** If science produces a new chemical that possesses good embalming qualities, or if any better way to make Embalming Fluid is discovered, **Champion** is always the first to receive the benefit.

Champion Has the Largest Sale.

We are the **largest compounders of Embalming Fluid in the world**, and we cannot expect to command trade unless we furnish a satisfactory article. But this is exactly the kind that we do furnish. Hence our success. Hence our mammoth sales. Hence your continued patronage

Champion Succeeds Where Others Fail.

The worst cases, in hot weather, under bad conditions, **have been kept for days and weeks by using Champion Fluid**. If you have a case to be shipped a long distance, **Champion is the Fluid** to use every time, and the corpse will arrive at its destination looking more lifelike, if possible, than when started on its journey.

Champion Goes Straight to the Spot.

Use **Champion** arterially, in the cavities, as a bleacher, deodorizer, disinfectant, preserver, undiluted, and it is bound to go to the spot. No other Fluid acts so swiftly, so perfectly, nor so satisfactorily.

Champion is Used by the Leading Embalmers.

The leading Embalmers all over the United States **use and recommend Champion Embalming Fluid**. We publish on the opposite page and the following pages a few of the hundreds of testimonials which we have recently received from users of **Champion** from forty States of the Union. Read them, and see what **Champion** does.

Champion is the Best All Around Fluid. Use no Other.

Your Orders Will Be Promptly Executed by the **SOLE** Manufacturers.

G. IACCHERI

CHAMPION CHEMICAL CO.

Gentlemen: It gives me pleasure to say that I have used Champion Embalming Fluid for some time. I have had some very bad cases to handle and Champion never failed to do all claimed for it, and I recommend it to the trade in general as a first-class fluid.

Respectfully yours,
A. M. CLOUGH.

DETROIT, MICH., Jan. 9, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid the past four years and find it to be superior to all fluids I have tried. I highly recommend it to any one in the trade as being the best fluid on the market.

Yours respectfully,
JOHN DELOR.

ALTON, ILL., Jan. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your fluid for the last six years and have always had splendid success with it and consider it a remarkably good fluid.

Respectfully,
JOHN BAUER & SON.

PAOLA, KAN., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion Fluid five years and am perfectly satisfied with it. Have found nothing better.

B. R. KEITH.

JOHN DELOR

B. R. KEITH

CHAMPION CHEMICAL CO.

Gentlemen: Very soon I will send in an order for some more of your Champion Fluid. The reason I have not ordered any lately is that I bought out a place some time ago, which had a great lot of fluid on hand, but I must say Champion has given me the greatest satisfaction.

Yours respectfully,
W. H. WILEN.

MARTINSBURG, W. VA., Jan. 11, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for two years and feel that I cannot say too much in its praise. It is all that you claim.

Yours truly,
WALTER E. YOPP.

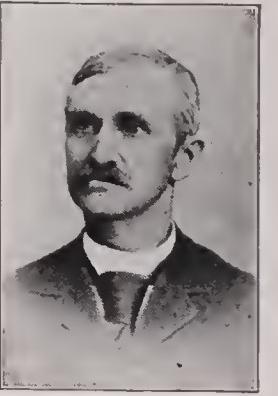

WALTER E. YOPP

SAN FRANCISCO, CAL., Nov. 23, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have great pleasure in informing you that since we have been using your fluid we have always had the best success, and consider it the most excellent embalming fluid.

Yours truly,
IACCHERI & BACIGALUPI.

R. G. SIPE

TRINIDAD, COLO., Dec. 27, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using your Champion Fluid for some time and can gladly recommend it to be a first-class fluid in every respect.

Respectfully,
R. G. SIPE & SON.

CHAMPION EMBALMING FLUID IS GUARANTEED SUPERIOR

TO ANY OTHER FLUID MADE

THIRTY CLAIMS FOR CHAMPION:

THE CHAMPION

- is perfectly compounded;
- is pleasant to handle;
- is not hard on the hands or instruments;
- does not stain;
- has an agreeable odor;
- is equally good in cavity or arterial work;
- is a perfect bleacher;
- gives a lifelike tint to the skin;
- does not produce an ashy gray color;
- does not produce a ghastly whiteness and lividity of the lips;
- does not dry up the lips, nose or ears;
- removes all discoloration;
- arrests putridity;
- is an unequaled deodorizer;
- is a matchless gas destroyer;
- is quick acting and effective;
- never fails;
- is always reliable;
- is not an experiment;
- surpasses all others as a disinfectant;
- is the best preservative;
- keeps the body in a natural state longer than any other Fluid;
- is of uniform strength and quality;
- gives satisfaction in every emergency;
- is the best all around Fluid;
- is scientifically compounded;
- is strictly up to date;
- is composed of rigidly tested chemicals;
- is the result of eighteen years' experience;
- is sold under positive guarantee.

And the number might be increased ad infinitum.

YOU
get full value
for your money
when you buy
**CHAMPION
FLUID**

BUT BEST OF ALL, CHAMPION FULFILLS EVERY CLAIM MADE FOR IT

NOTA BENE—We have made a special study of **Bacteria**, and have embodied chemicals in **Champion Fluid** which destroy the germs of putrefaction and infection, thus arresting decomposition and destroying infection, so that the body may be shipped without danger to the public.

Order from the **SOLE** Manufacturers,

THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.

LINCOLN, NEB., Jan. 3, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for nearly five years and have given it some very severe tests, and it has proven to do its work to perfection. I have used your fluid in nearly all kinds of cases and never had a failure yet. It is a splendid fluid.

Yours truly,

E. L. TROYER.

E. L. TROYER

CAPT. GEORGE BILLOW

AKRON, O., Jan. 12, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: During the hot season of last summer I gave your fluid a thorough test and found it to prove all you claim for it; hence my recent order for a large barrel of it.

Yours truly,

GEORGE BILLOW.

NEW HAMPTON, Ia., Jan. 14, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I gave Champion a hard test last August. The subject had some forty epileptic fits within twenty-four hours before death. When I took the corpse in charge it was in a terrible condition, the face being bruised and discolored beyond recognition. I kept it four days, and at the time of burial it was in a splendid condition. I am well pleased with the Champion Embalming Fluid, and think it the grandest bleacher and preserver I ever used. Respectfully,

G. BREEDING.

GRANT BREEDING

J. W. STEWART

DULUTH, MINN., DEC. 4, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using embalming fluids since 1880, and have tried a great many, but have found none equal to Champion. I have never had a failure since using it.

Yours,

J. W. STEWART.

GAINESVILLE, FLA., Jan. 8, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used several fluids during my twenty years' embalming, the last being yours and I am well pleased with it, and I enclose an order for more.

Respectfully

ROBERT McCLELLAN.

ST. JOHNSBURY, VT., Dec. 30, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid the past season and I find it all you claim. I can recommend it to all in want of a good article. Enclosed find check in settlement of bill.

Yours truly

C. A. CALDERWOOD.

ROBERT McCLELLAN

CHAS. A. CALDERWOOD

MARSHALL, Mo., July 9, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Please send me at once ten gallons of Champion Fluid. I have tried several kinds of fluid, but have used none that has given as good satisfaction as Champion.

Yours, etc.,

B. F. BRADFORD.

B. F. BRADFORD

I. LINDSEY

DENISON, TEXAS, Dec. 26, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for several years and it has always given perfect satisfaction. I consider it reliable in all seasons, and I have used it in the worst cases that a funeral director has to deal with, with splendid success.

Respectfully,

I. LINDSEY.

EWARE OF FALSE ECONOMY.

**CHAMPION EMBALMING FLUID
IS A CHEAP FLUID**

Not **BECAUSE** it costs less than other fluids,
But **BECAUSE** it goes further and gives better satisfaction.

Low price and economy—whatever some people may think—are by no means synonymous terms. On the contrary, low price generally means high cost and indifferent success. In nothing is this more evident than in the case of Embalming Fluid.

**A CHEAP FLUID IS A POOR FLUID,
AND...
A POOR FLUID IS DEAR AT ANY PRICE**

Another thing worthy to note is the fact that many manufacturers, after making cheap fluids for years, have discontinued them, and are now placing higher priced fluids on the market. This is one of the strongest arguments against cheap fluids.

CHAMPION EMBALMING FLUID

Has long been recognized by the leading Embalmers of the country as the highest attainment of chemical science as applied to embalming.

You want a perfectly safe Fluid—one that can be relied upon at all times and under all circumstances—in summer as well as winter—in difficult cases as well as easy ones.

All chemicals used in **Champion Fluid** are subjected to the most rigid tests before compounding. You need not feel any uneasiness when using **Champion**.

Read the Testimonials on the opposite page and following pages of this Catalogue. They tell the tale.

CHAMPION FULFILLS EVERY REQUIREMENT.

It is an excellent bleacher as well as preserver. You need only one kind of Fluid when you use **Champion**.

We have found no necessity to change our Fluid every three or four months, or every year, as some manufacturers do. There has been no groping in the dark in the manufacture or use of Champion Fluid.

The Champion has always been, is now, and we intend it to remain

THE BEST FLUID MADE.

Order Direct from the SOLE Manufacturers,

**THE CHAMPION CHEMICAL CO.
SPRINGFIELD OHIO.**

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

FALL RIVER, MASS., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I want to let you know that during the hottest weather I have used your embalming fluid and have given it fair and impartial tests, and am very proud to say it has given perfect satisfaction. I recommend your fluid as the best.

Respectfully,

L. O. PARADIS.

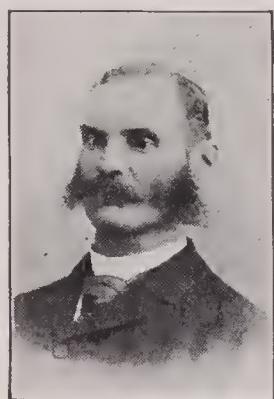

LEBANON, O., Feb. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Please ship us 20 gallons Champion Fluid. We have just finished a 20-gallon keg, and have always met with the best success by using Champion, and can gladly speak praise of its merits. Yours truly,

W. UNGLESBY & SONS.

L. O. PARADIS

W. UNGLESBY

HANOVER, PA., Jan. 24, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for several years. I will say that I always had splendid success with it, and consider it a most excellent fluid and also a credit to the trade, and I, as a funeral director, would hate to be without it.

Yours respectfully,

GEORGE W. T. THOMAS

ST. PAUL, MINN., Jan. 9, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Since using your Champion Embalming Fluid we feel very much pleased with it. We find it perfectly safe at all seasons of the year, and would recommend it to all undertakers. In fact, it surpasses all our expectations.

Yours very respectfully,

J. G. THAUNG.

GEORGE W. T. THOMAS

J. G. THAUNG

PATTANSBURG, Mo., Dec. 31, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid and I can cheerfully recommend it to the practical Embalmer, or to the Undertaker who does not do embalming, for bleaching the face, hands, and exposed portions of the body. By an oversight I left a keg of Champion Fluid in a box for three years, and am using same at present, and truthfully say that it seems as good or better than the fresh fluid, and had not evaporated any. In the future I shall use no fluid but Champion.

Respectfully,

GEORGE N. GROMER.

TRENTON, N. J., Dec. 31, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your fluid for almost six years with success. I think it is one of the most reliable fluids in the market. As a graduate of two schools of embalming, and with five years of practical experience operating, I know of what I speak. Respectfully yours,

PHILLIP A. TALLON.

OLYPHANT, PA., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Our last order for ten gallons of Champion Fluid came yesterday. We were glad to see it come, as we do not want to be out of it. When we use Champion Fluid we feel safe, and do not worry.

Yours respectfully,

D. G. JONES & SON

D. G. JONES, SR.

D. G. JONES, JR.

CHAMPION EMBALMING FLUID CHALLENGES THE WORLD

There may be other good fluids, but there is ONLY ONE BEST, and that is CHAMPION. Champion has the confidence of the leading embalmers of the country. Read the testimonials in these pages.

THE JUNIOR PARTNER

Medina, N. Y., Jan. 20, 1896.

Champion Chemical Co., Springfield, O.

Gentlemen : My papa says your Champion Embalming Fluid and I reached him about the same time. Both of us, he says, have given the best of satisfaction. What I am to the house that is to the business. The longer we are with him the harder it would be to get along without us. I am his junior partner.

Yours very truly,

D. D. Holdredge, Undertaker.

Beatrice Holdredge.

THE CHAMPION CHEMICAL COMPANY
SPRINGFIELD, OHIO.

Mt. Pleasant, Pa., Nov. 30, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We take the liberty to say that we have used your fluid for a number of years. Will say that we have always had splendid success with it. Having had an experience for over twenty years, we would therefore recommend it to the trade as a reliable fluid. Respectfully,

S. P. ZIMMERMAN.

NEWPORT, R. I., Nov. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: It is a pleasure for me to testify for "Champion" Fluid. I have been using it for five years, to the exclusion of other brands, and with increasing satisfaction and never varying success. I am sure no Embalmer need search for anything better. With all good wishes,

Truly yours,

EDWARD P. MARSH.

EDWARD P. MARSH

S. P. ZIMMERMAN

CHICAGO, ILL., Jan. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I take pleasure in recommending your fluid from an experience I had on the body of Dr. James R. Smith, who died here June 13, 1895. I used three bottles of Champion Fluid by the cavity process. He was a large man; we kept him two days here; the weather was very warm and sultry. We shipped the remains to Citronelle Alabama, and when opened they looked better, if anything, than when they left Chicago. As a bleacher it has no equal, and does not corrode your aspirator, nor need you be afraid of soiling a Brussels carpet, should any accidentally get on. I can heartily recommend it as an all-around fluid.

J. W. BOWMAN.

CLINTON, IOWA, Jan. 6, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your fluid for a number of years, and have had good results from it. We consider it excellent.

O. S. KNOWLTON.

O. S. KNOWLTON

J. W. BOWMAN

MONTCLAIR, N. J., Jan. 3, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have had twenty-three years' experience as an Undertaker. For the last fourteen years have done nothing but embalming, except where it was the special request of the family not to do so. I have used several different fluids and find none that suits me as well as yours. When I use up balance of last order you will hear from me again.

Respectfully yours,

GEORGE E. BEACH.

ROBERT HOWISON

NEW YORK CITY, Dec. 26, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: It pleases me to state that I have used all the well-known embalming fluids manufactured, and that among them all there is not one that can equal Champion. It is the fluid without a doubt.

Yours truly,

ROBERT HOWISON.

GENEVA, O., Jan. 8, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Please ship us ten gallons Champion Fluid. We are not entirely out of your fluid, but cannot afford to be without it, as it gives the best satisfaction of any fluid we have ever used.

Very respectfully,

Large Pages•

Latest, Best, Most ••
Thorough and Compre-
hensive Work on the Art
and Science of Embalm-
ing ever Published ••

THIS IS ONE OF THE MORE THAN FIFTY SPLENDID ANATOMICAL PLATES OF THE HUMAN BODY, WITH WHICH THIS INVALUABLE WORK IS ILLUSTRATED

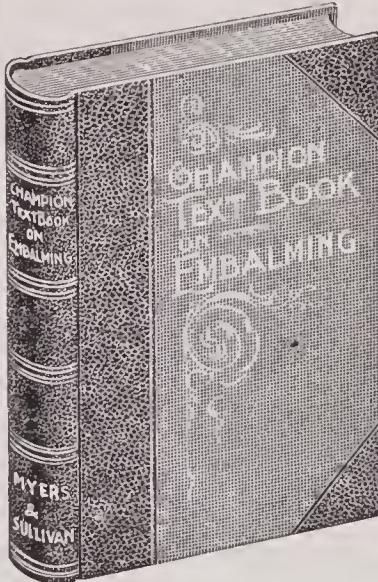

Every Funeral Director and Embalmer should possess a copy. To read and study it will be the next best thing to taking a full course of instruction in the Champion College of Embalming.

FOR DESCRIPTION AND PRICES, SEE FOLLOWING PAGES.

The Champion Text-Book on Embalming

Is the work of one of the most competent and progressive members of the profession in America, Dr. Eliab Myers, lecturer and demonstrator of the Champion College of Embalming, assisted by F. A. Sullivan.

DR. MYERS is a graduate of the Ohio Medical College, Cincinnati; has had twenty years' successful practice in medicine and surgery, and a large experience in general embalming through his connection with the Champion Chemical Co. as vice-president and special traveling representative during the past six years. He is thus better qualified to write on such branches as Anatomy, Bacteriology, Sanitation, Morbid Anatomy, Treatment of Infectious and Contagious Diseases, Physiology of the Absorbent and Circulatory Systems, etc., than any other man in the profession.

From the Preface:

"The Embalmers and Funeral Directors of this country have made frequent complaints that they were unable to find, in books on embalming heretofore published, such information as they desire on numerous topics of professional inquiry, especially those which have been the subject of recent investigation or introduction.

"To meet this confessed demand for a work of more modern character along this line, the preparation of the Champion Text Book on Embalming was undertaken.

"The purpose of the author has been to supply, within the compass of a single volume of moderate size, the information necessary to a full understanding of the subjects belonging properly to the science and art of embalming."

Thus the Champion Text-Book on Embalming embodies the result of many Years of Research and Practice & & &

The book is full of information of just the character Funeral Directors and Embalmers need every day in their business. While the treatment is scientific, it is not so technical but that any one of ordinary intelligence can understand and profit by its perusal.

The book is divided into four general heads: The Human Body; Embalming; Morbid Anatomy, and Sanitation and Disinfection. Part First gives the preliminary knowledge so necessary to an intelligent understanding of the art. All the best modern methods of embalming are set forth and explained in such a plain and straightforward manner that any one can take them up and practice them. The description and treatment of special diseases, including all the difficult cases coming into a Funeral Director's experience, are much fuller than ever before attempted, making this portion of the book alone worth many times its cost. Not the least valuable part is that devoted to sanitation and disinfection.

The Champion Chemical Co.
SPRINGFIELD, OHIO

To the Funeral Directors of America

If you have ever taken a course in embalming you need the CHAMPION TEXT-BOOK ON EMBALMING for review of your course, to consult when you have a difficult case to handle, and for more thorough and systematic study with a view of adding to your proficiency.

If, on the other hand, you have never had the advantages a thorough course of instruction can give, its value to you will be all the greater. By mastering its contents your ability to conduct your business in an intelligent and successful manner will be greatly increased.

The Champion Text-Book on Embalming

Is a whole library in itself—a veritable cyclopedia of the art. Written by men of such acknowledged ability, the work is the highest authority on the subject. Though treating largely of technical matters, the language is so plain and the explanation so clear that any one can easily comprehend.

The book is a large volume of over five hundred pages and makes a handsome appearance, being a fine specimen of the printer's art. It is printed on the best of book paper and the letter press is well-nigh perfect. The Physiological diagrams and anatomical charts of the human body, with which the work is so profusely illustrated, are the finest, and double the number, ever used in a similar publication. It is employed as a text-book in the

Champion College of Embalming

And is not, like so many technical works, unfit for exhibition and use in an audience made up of the two sexes. Neither is there anything in the book to make it unsuitable for circulation in the family circle.

But no brief description can give any adequate idea of the value and importance of this volume to the Funeral Director and Embalmer. It must be seen and perused to be appreciated. Suffice it to say, that, once possessed, many times the cost price would be no inducement to part with it, could it not be replaced. *It is simply invaluable.*

CHAP. IV. **Resuscitation**—etc., etc., etc.

FOR FURTHER DESCRIPTION, PRICES, ETC., SEE PRECEDING PAGES.

Champion Instrument Grips

Our Style A Grip.

For elegance, durability and convenience, cannot be surpassed. In its manufacture we have secured an article that will meet the requirements of those desiring a strictly high-grade Grip. The material, workmanship, and general make-up, inside and out, show it to be just what we claim for it,

The Finest and Best Grip on the Market.

Style A Grip.

Grip Open, with Instrument Tray in Place.

Style A Grip is made of the very best quality olive green, or black pebbled grain leather, and is lined throughout with heavy kid leather. The instrument flaps are also of heavy kid leather, lined with chamios. The tray is separate and removable. The frame is of steel, and the mountings and clasps are highly polished brass, giving the Grip a very handsome and attractive appearance. The latest and best design of Yale locks is used. The Grip is made especially strong and firm, and combines every desirable feature found in the best makes sold. The size is: height, 14 inches; length, 16 inches; breadth, 9 inches. The interior arrangement is exceptionally convenient. There are four separate metal removable compartments for bottles, and a large metal central compartment, also removable, in which can be placed two extra bottles (when desired), the pumps and sundries. A description of the Instrument Tray will be found on page 19.

**THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.**

Champion Instrument Grips

Our **Style A Grip** is the acme of perfection. Stocked with the Instruments and Appliances included in our No. 81 Outfit, nothing equal to it, for completeness and desirability, can be found.

If you desire a really first-class Grip, secure one of these elegant and substantial affairs.

You will notice that **Style A Grip** is much higher than our other styles, and has the appearance of a handsome traveling valise. It costs more money than any other Grip on the market, but it is well worth every cent it costs.

Style A Grip.

Grip Open, with Four Bottles; Instrument Tray Removed.

The **Champion Instrument Grips**, all styles, are made to hold six bottles, but the Outfits, as priced, include but four, which is the number most generally ordered. When six are desired add fifty cents to the price quoted, for the two extra bottles. These extra bottles add greatly to the completeness of an Outfit, and are found very desirable, especially in difficult cases, such as Embalmers so often have to deal with.

METAL AND ASEPTIC. The four compartments for the bottles and the large central one for instruments, etc., in All **Champion Grips**, are made of metal, and are consequently easily and quickly cleansed. Should a stopper come out or a bottle be broken, and the fluid spill out, it will be caught in the compartments and not injure the Grip.

The Champion is the Only Make of Grips Using these Metal Aseptic Compartments.

The Bottles are always carried in a standing position in **Champion Grips**, another point of excellence over many other grips.

Champion Instrument Grips

Style A Grip.

Grip Closed; Instrument Tray Removed and Open Ready for Use.

The Instrument Tray belonging to our **Style A Grip** is substantially constructed and well arranged for its purpose. The cover and instrument flaps are made of kid leather. Most of the instruments are attached to the flap, which is lined with chamois, as well as the side of the cover on which the instrument flap rests. There are three compartments—a long, chamois-lined section, for trocars and other large instruments; and two, nearly square, lined with blue or purple silk plush, for sundries. The cover is also lined with silk plush. On the back of the instrument flap is a large pocket for memoranda, etc.

Champion Instrument Grips

STYLE B—Flaps Fastened by Patent Buttons: Six Bottles Shown.

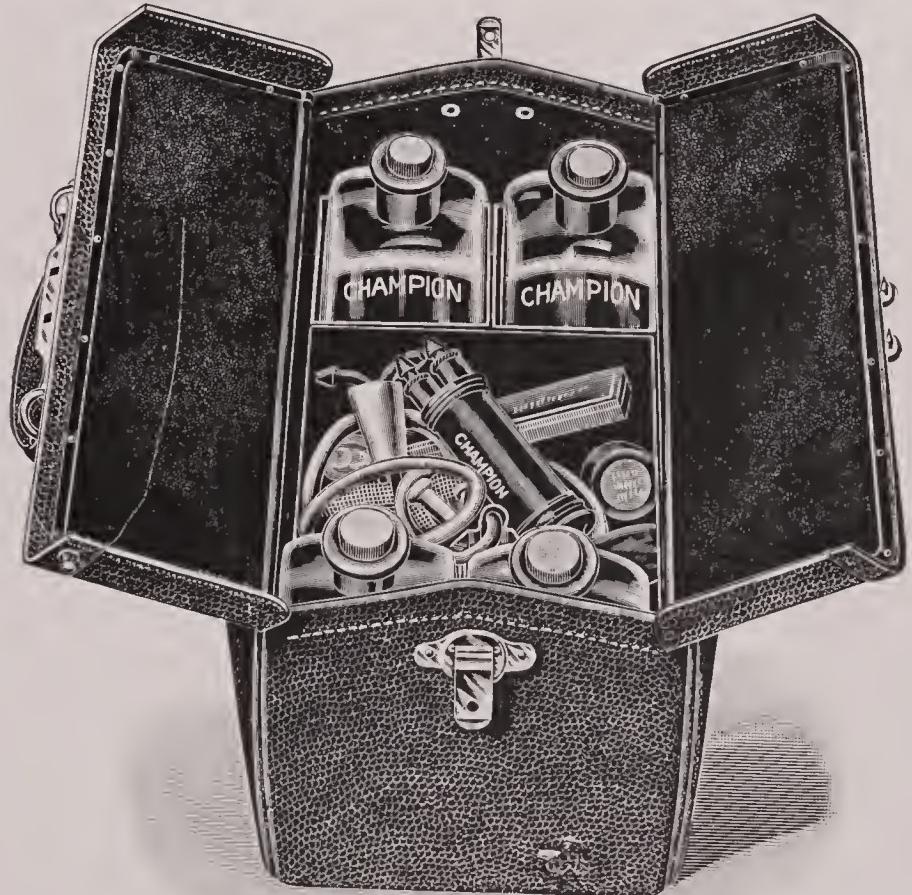

STYLE B—Showing Arrangement and Assortment of Instruments in Outfit No. 80.
FOR FULL DESCRIPTION SEE PAGE 22.

Champion Instrument Grips

STYLE C—Flaps Fastened with Straps and Buckles; Four Bottles Shown.—See page 22.

STYLE D—Instrument Case Removed. See page 23.

Champion Instrument Grips

Description of Styles B and C Grip.

Our Style B Grip

Has hitherto been our most expensive Grip, and is superior to any similar priced Grip to be had. It is made of the best grade black pebbled grain leather, lined with heavy kid leather, with instrument flaps of heavy kid leather, chamois lined. The frame is substantially constructed, and the Yale Locks used are of the latest and best patterns and very desirable. The mountings and clasps are metal, finely nickel plated. Size, fifteen inches long, ten inches high, and nine inches broad. The instrument flaps are fastened with patent buttons, which make a very neat and secure fastening. See cuts on page 20.

Six bottles can be packed in Style B, as well as the other styles, when desired. It is frequently very convenient to have extra bottles when removing blood or other fluid from a body. The modern "Up-to-Date" Grips should have the short, squat bottles, such as are furnished with our **Champion Grips**, in order to carry them in a standing position, instead of the old style high bottles. There is then no danger of the corks coming out, and the fluid wasting and injuring the Grip and instruments.

PRICES OF STYLE B GRIP AND OUTFITS

For special discount on Grips and partial Outfits, see page 27.

Champion Instrument Grips

Description of Style D Grip

Some Embalmers prefer to have a separate Instrument Case instead of having the instruments fastened to flaps on the lids of the Grip. In order to meet such a demand we furnish our Style D Grip. The instruments are fastened to the Case, as shown below. This Grip is the same as to size, material and price as styles B and C. See cut on page 21.

Champion Grips are all Popular and Good Sellers.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

SAN FRANCISCO, CAL., Dec. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We take pleasure in recommending your fluid. In every particular it has given perfect satisfaction. We will say that we used Champion on Blanche Lamont and Minnie Williams. The daily papers complimented us on our work on these cases, which were viewed by over twenty-five thousand people. Wishing Champion every success that is due it, we remain, Yours most respectfully,

GOLDEN GATE UNDERTAKING CO.

G. W. KEELER,
H. E. SNOOK.

URBANA, O., Dec. 10, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: A short time ago Baron Gerald Santos, of Lisbon, Portugal, died very suddenly in this city. We embalmed the body with Champion Fluid, and placed it in the receiving vault. At the end of six months it was in a splendid state of preservation, and looked perfectly natural. We then shipped the body to Portugal, and learned that it arrived in good shape. We are well pleased with Champion, and think it rightly named. It has given us better results than any other fluid. Yours respectfully,

G. H. HUMPHREYS & SON.

G. H. HUMPHREYS

EARL HUMPHREYS

REVERE, MASS., Dec. 1, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Champion is the best and cheapest fluid in the end, and gives me entire satisfaction in my work.

Very truly yours, MRS. R. K. HUNT.

H. T. BEERS

PHILADELPHIA, PA., Dec. 17, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using Champion Embalming Fluid for some time past, and it has given entire satisfaction in every respect, and we find it superior to all other fluids. We have on the board at the present time a body we have been keeping for five days by cavity embalming with Champion, and it looks fine. We are well pleased with the action of the fluid. You can expect another order from us in the near future.

Yours respectfully,

ALBERT S. BEERS & BRO.

Embalmers' Outfits

No. 88 Outfit.

Our Outfit No. 88 is equal to those of other makes costing \$25.00. It consists of the following Instruments and Sundries, with either a Style B, C or D Grip, as desired:

1 Style B, C or D Grip	\$11 00	2 Hard Rubber Arterial Tubes, large and small	\$0 50

1 Champion Hard Rubber Pump	4 00	1 Soft Rubber Thimble	05
1 Goose Neck and Tubing (white, without rolled ends)	1 50	1 Flexible Catheter	15
1 12-inch Hard Rubber, Metal Lined, Arrow-pointed Embalming Needle	1 50	3 Surgeon's Needles, assorted	25
1 Scalpel, Ebony Handle	50	1 Spool Linen Thread	10
1 Aneurism Needle and Grooved Director, combined	50	1 Cake Beeswax	05
1 Pair Spring Forceps	75	1 Sponge Bag	25
1 Pair Scissors	50	1 Sponge	10
		Total	\$23 20

Price of No. 88 Outfit, Complete, \$22.00.

No. 88½ Outfit.

This Outfit is the same as No. 88, except a **Style A Grip** is substituted for the Style B, C or D Grip..... **Price, \$36 00**

No. 89 Outfit.

Students of Embalming and Undertakers just beginning business sometimes desire an Outfit at the very least cost possible, even if Instruments, which would be desirable, have to be omitted. To meet this demand, we furnish our No. 89 Outfit, which comprises the following Instruments and Supplies (same grade as in No. 84 Outfit):

1 Style B, C or D Grip	\$11 00	1 Pair Scissors	\$0 50
4 Graduated qt. Bottles, with Rubber Stopples	1 00	1 Hard Rubber Nasal Tube	50
1 Champion Bulb Syringe	1 75	2 Arterial Tubes, large and small	50
1 12-inch Hard Rubber, Arrow-pointed Embalming Needle	1 50	1 Flexible Catheter	15
1 Scalpel, Ebony Handle	50	3 Surgeon's Needles, assorted	25
1 Aneurism Needle and Grooved Director, combined	50	1 Spool Linen Thread	10
1 Pair Spring Forceps	75	1 Cake Beeswax	05
		Total	\$19 05

Price of No. 89 Outfit, Complete, \$18.00.

This is the best Outfit put up for the money, and is equal to twenty dollar Outfits of other makes.

No. 89½ Outfit.

This Outfit is the same as No. 89, except a **Style A Grip** is substituted for the Style B, C or D Grip..... **Price, \$32 00**

SPECIAL DISCOUNT ON GRIPS AND INSTRUMENTS.

When an entire Outfit is not desired, we will allow the following discounts on Grips and Instruments and Sundries belonging to Outfits, YOUR OWN SELECTION:

On **Style A Grip**, with Instruments, etc., amounting at list price to \$40.00 or over, a discount of ten per cent.

On **Styles B, C and D Grips**, with Instruments, etc., amounting at list price to \$25.00 or over, a discount of ten per cent.

On **Styles B, C and D Grips**, with Instruments, etc., amounting at list price to \$18.00 and over, up to \$25.00, a discount of five per cent.

THOMAS KEENAN

CHAMPION CHEMICAL CO.

Gentlemen: I take pleasure in saying a good word for your embalming fluid. I have had about two years experience with Champion Fluid. It works like a charm, and I can heartily recommend it to all who want a first-class fluid. With success to you and the Champion Fluid, I remain,

Yours respectfully, THOMAS KEENAN.

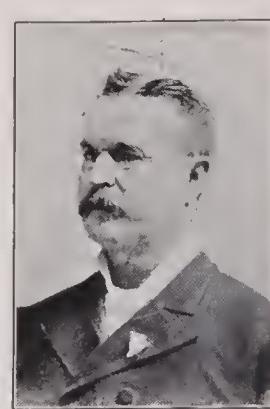

LOUISVILLE, KY., Nov. 12, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: The last year I have used your fluid, and will say it gives entire satisfaction, and can cheerfully recommend it.

Respectfully, JOHN F. HEINRICHS.

JOHN F. HEINRICHS

W. H. JOHNSON

CHAMPION CHEMICAL CO.

Gentlemen: We have been using different embalming fluids for the past twelve years, but think Champion leads them all as a preserver and bleacher. Please ship twenty-five gallons by freight at once. Yours respectfully,

JOHNSON & SON.

HUTCHINSON, KAS., Jan. 22, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: After having thoroughly tested it, we take pleasure in recommending Champion Fluid. For about ten years previous to our using Champion we had used another fluid exclusively. We concluded to give Champion a trial, the results of which have been perfectly satisfactory. The fluid does its work thoroughly in every case.

Very respectfully, W. A. FARIES & BRO

W. A. FARIES

H. M. JEWETT

CHAMPION CHEMICAL CO.

Gentlemen: I have used several barrels of your Champion Fluid, always with perfect success. Could not do less than speak in its praise. I consider it an excellent fluid.

Yours truly, H. M. JEWETT.

J. ARTHUR SMITH

CHAMPION CHEMICAL CO.

Gentlemen: We have used the Champion Fluid for five years, and during that time we have made a great many shipments, always with the best results. We cheerfully recommend it as the best preserver and bleacher combined that we have used. Yours truly,

WASHINGTON UNDERTAKING CO.,
Per J. ARTHUR SMITH.

TIPTON, IA., Jan. 1, 1896.

It is a very convenient set of instruments to possess, for occasionally it is necessary to make a post mortem examination or inquest, and the case contains all the instruments necessary, viz.: metacarpel saw, scalpel, cartling knife, cartilage knife, blow pipe, scissors, arterial hook, spring forceps, bone chisel, three surgeon's needles, assorted, and triple chain and hooks. Price, \$12 00

ORDER ONLY BY NUMBER.

Aspirators and Injectors

THE CHAMPION PUMPS

The **Champion Pumps** are offered to Embalmers as the **latest and best improved instruments** for the very important and thorough work required in an Aspirator and Injector. The **Champion Pumps** embody new ideas and new principles, and are the best on the market.

Champion Pumps are made of the best quality of hard rubber, in a very superior manner, and are the highest embodiment of ingenuity and skill in perfecting desirable instruments for the Embalmer. They possess wonderful power, and yet are manipulated by the most delicate action. The resistance is so sensitive that a slight pressure of the thumb operates the pump.

The Patent Piston is very sensitive to the touch, and therefore works smoothly, easily, and without exertion or trouble.

The Suckers on the piston are provided with patent packing, which will retain the oil for a long period and not dry out. Therefore, the pump is always ready for use, and responds quickly, readily, and in a highly satisfactory manner. In many other pumps the packing becomes dry, and the piston works very hard, requiring much force, and often becomes fast, or responds in a jerky and troublesome manner.

The Tubing used in the **Champion Pumps** is made especially for us, of the best corrugated red rubber, with rolled ends; is thick, firm, non-collapsible; neither will it crack nor crease. In fact, it is anti-troublesome. We wish to call especial attention to the **Rolled Ends**, which essential feature places it ahead of that which is generally used on other pumps. Ordinarily it presents simply a straight, severed end, and the connections are annoying and troublesome to make. **With the Rolled Ends** connections are made in an easy manner, and without loss of time, and are air-tight and leakage-proof.

This Style Tubing costs more than twice as much as the ordinary kind, but we are extremely anxious to give our customers the **best**, and to make the **Champion the leading Pumps used by Embalmers**.

The Champion Hard Rubber Connecting Cut Offs, now furnished exclusively with our **Pump Outfits**, (unless otherwise requested), are also much superior to any other style.

Each Valve Barrel is plainly marked showing which is the injector and which the aspirator side.

The Champion Pumps can be used as Aspirators or Injectors. The action of the pumps is based upon atmospheric pressure, air being forced into the bottle containing the fluid, and this forces the fluid into the tubing and into the body. **The fluid** does not pass into the body of the pumps, therefore, the **Champion Pumps** will outlast the old style, and it is quite evident that the danger of soiling carpet, clothing and furniture is removed.

ONCE TRY A CHAMPION PUMP AND YOU WILL USE NO OTHER

Aspirators and Injectors

DIRECTIONS FOR OPERATING CHAMPION HARD RUBBER PUMPS

Nos. 1, 2 and 3.

To Inject Fluid into the Body.—Place gooseneck in bottle of fluid, with 10-inch piece of tubing attached to long stem; attach 28-inch piece of tubing to upper end of short stem and 40-inch piece to long stem; attach loose end of 40-inch tubing to arterial tube, which has been inserted into the artery; attach injector side of Pump to free end of 28-inch tubing; operate Pump, by placing thumb in ring on piston and second and third fingers on flat rim just below, and make a full stroke; this will force air into bottle, thus forcing fluid out of bottle into the artery. Inject slowly, and never allow air to enter artery as it would occupy space that should be filled by fluid. The same method should be used to inject the cavities, but less care need be taken about admitting air.

To Aspirate Blood from the Body.—First remove 10-inch piece of tubing attached to long stem in bottle; then proceed exactly in same manner as when injecting, except that you attach aspirating (instead of injecting) side of Pump to 28-inch tubing. Now, when you operate Pump, you will draw, or exhaust, air from the bottle and create a vacuum therein, which causes the blood to flow from the body into the bottle.

To Aspirate Blood and Inject Fluid Jointly.—Two bottles, two goosenecks, and two sets of tubing are required for these operations, which should not be performed simultaneously, but alternately.

To Aspirate.—You will first raise the gooseneck out of the bottle containing fluid, and continue operating the pump until all the blood is removed that is possible. **To Inject,** tighten the gooseneck in fluid bottle and raise gooseneck out of the other bottle, and pump in a pint or two of fluid; then reverse the operation and continue the operations alternately until all the blood is removed that is possible, and still continue the injection until a sufficient quantity of fluid has been injected.

When it is desired to increase the length of the 40-inch piece of tubing, the 28-inch piece can be connected to it by means of a hard rubber connecting link, or connecting cut-off, the 4-inch piece being used for attaching Pump to gooseneck.

No fluid should ever get into the hard rubber pump, as it is used entirely for pumping air into the bottle when injecting and for pumping air out of the bottle when aspirating. The tubing will last longer if, after using, it is hung up and thoroughly dried.

* USE ONLY CHAMPION PUMPS *

The Champion Chemical Co.
SPRINGFIELD, OHIO.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

SHERWOOD, O., Feb. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used a great many different kinds of fluids, but have found none to come up with Champion. In one case, where a lady died in childbirth, on account of friends coming from a distance we were compelled to keep the corpse six days. We only gave it cavity embalming with Champion, and yet had no trouble. She really looked better than when she was in good health. We could give many more such cases. For arterial work we do not think Champion can be excelled. We would recommend it to all Embalmers. Will never use any other fluid so long as it does the work it has done for us. Respectfully,

BLOOM & CO.

CHAMPION CHEMICAL CO.

Gentlemen: Having used a great many other Fluids, we find Champion is the best. It always gives good results.

Yours respectfully,

DAVID FUDGE & SON.

ST. PAUL, MINN., Jan. 23, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I wish to tell you what success I have had with the Champion Fluid. I had some very bad cases last year during the hot weather, and never had a failure. January 6, 1896, I received two bodies that were asphyxiated, and were dead thirty-six hours before I took charge of the remains. I embalmed them with Champion Fluid and left them one week in the morgue, and then shipped them to New York City for burial, where they arrived in capital shape. I think Champion Fluid the best I ever used, and would not be without it.

Sincerely yours,

JOSEPH J. HURLEY.

Aspirators and Injectors

CHAMPION PUMP No. 1

The Valves used in No. 1 Pump (see cut below) are quick acting, strong, durable, not liable to bend, curl, nor become troublesome. They have a flat surface, so that the air pressure comes full and direct, making a powerful and instantaneous action. They fit tightly to the boxes, which obviates the danger of falling out and being injured or lost. The valve boxes are entirely separate from the pump, being attached to the end of the yoke-shaped tubing, which prevents oil from the piston coming in contact with the valves.

Parts for No. 1 Pump.

ORDER ONLY BY NUMBER.

Gentlemen: I have just received your invoice of fluid, and I desire, by this letter, to express my entire satisfaction with your Champion Fluid. Those who wish best results in embalming must use a high grade fluid. I have been thirty years in the business, and have used a great many different makes of fluid, and for the past six years have had the greatest success with the Champion. Wishing you a merry Christmas and a prosperous year, I remain,

Respectfully yours, T. W. McNETT.

RED BANK, N. J., FEB. 7, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I herewith enclose check in settlement of invoice rendered. Please ship me at once a ten gallon keg of Champion Fluid. Have used your fluid for several years, and it has always given me satisfactory results. **As a bleacher and preserver I am looking for nothing better.**

Yours respectfully, R. L. SMITH.

ALBIA, IOWA, Jan. 8, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your fluid for the past four years, and find it a first-class article. Have always had splendid success with it in both arterial and cavity work, and as a bleacher there is none better.

Yours respectfully, THOMAS H. ZOOK.

PHILADELPHIA, Pa., Dec. 14, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your fluid for almost four years, and have not had a failure. In preserving, bleaching, hardening and neutralizing Champion has no equal. I would not be without it. Yours respectfully,

HARRY R. HAGENKOTTER.

TOLEDO, O., Dec. 9, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have lately tapped a fifty-gallon barrel of Champion Fluid. Have had such striking success in several cases of puerperal fever and dropsy that after two months in the vault the remains were viewed by the family and friends before final interment, and highly commended for their lifelike appearance. My son Frank, who does the embalming, says **Champion Fluid beats them all**, and recommends it to all who wish to know. Respectfully yours,

ANTON SENN.

THE CHAMPION CHEMICAL CO.,
SPRINGFIELD, OHIO.

ORDER ONLY BY NUMBER.

SARATOGA SPRINGS, N. Y., Dec. 13, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used Champion Fluid for years, and I consider it one of the best fluids on the market. My opinion is, if the Undertaker does his part well, the fluid will do the rest. There are cheaper fluids on the market, but it pays the Undertaker to use the best, and then he need not lie awake nights worrying about the results. **It will be all right if Champion Fluid is used.**

Yours respectfully,

H. H. MARTIN.

LARUE, O., Dec. 10, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have thoroughly tested a number of different kinds of fluids, and I am well convinced of the superiority of Champion Fluid over all others. I have had a number of very bad cases in the last year, and your fluid has stood the test in all cases. The people are pleased to have their friends kept so nice, and I am well pleased to have the fluid do the work. Yours truly,

G. A. L. MARKWITH.

HOUGHTON, MICH., Jan. 12, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion Fluid, and can recommend it to the trade as a reliable fluid. I have had 18 years' experience. Having used several different fluids during that time I find the Champion Fluid to be the best fluid to be relied upon. Ship at once a 10-gallon keg.

Yours respectfully,

AUGUST L. KRELLWITZ.

DEPERE, WIS., Jan. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We are pleased to have the opportunity to recommend your Champion Embalming Fluid. **We find it a success in every way.** Yours truly,

KUEHL & SON.

WORCESTER, MASS., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have used the Champion Embalming Fluid for a number of years and never had one failure. We therefore consider it a first-class fluid, and feel it our duty to recommend it to the trade. Respectfully,

B. J. BERNSTROM.

FAIRFIELD, O., Dec. 10, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used Champion Fluid for years and have always had good success and never had a failure. Have used other fluids, but always depend on Champion as the standard. Respectfully,

F. P. BRYAN.

EGG HARBOR CITY, N. J., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid for four years and highly recommend it as the most satisfactory fluid I ever used. Yours very truly,

JOHN PRASCH.

ATLANTIC, IOWA, Feb. 28, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used Champion Fluid for several years, and can say that I have had the best of success with it. I don't think it can be beaten. I consider it a most excellent fluid. Respectfully,

J. L. WINNE.

Champion Automatic Injector

Injector Ready to Operate.

No. 26.

The use of the **Champion Automatic Injector** enables the Embalmer to attend to detail work while the Injector is forcing Fluid into the arteries. To operate it, fill the air chamber with air, and automatically it will be injecting Fluid while the operator can attend to cavities or other work. In the busy season this desirable instrument will save an Embalmer a great deal of time.

No. 25. Champion Automatic Injector, with Case.

No. 25. This consists of the following: Injector, Bulb, Metal Cut-off, Goose-neck, Float Valve, Rcd Tubing with rolled ends (*28 inches long*), Hard Rubber Graduating Cut-off and Arterial Tube, in a substantial Case Price, \$5 00

No. 26. Automatic Injector, Bulb and Metal Cut-off, without Case Price, 3 00

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

STANFORD, Ky., Feb. 7, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using Champion Fluid for about one year, along with other fluids, but none have given satisfaction equal to the Champion. Yours,

WITHERS & HOCKER.

BUFFALO, N. Y., Dec. 19, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I am only too glad to say that the Champion Fluid is the best and most reliable fluid I ever used. I have used other fluids, but I am through experimenting so long as Champion can be bought for money. Respectfully yours,

JOSEPH ENDRES.

SOMERVILLE, N. J., Jan. 16, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I do not hesitate for a moment in recommending to every progressive Funeral Director the Champion Embalming Fluid. I have given it some very severe tests, and have always found it reliable, and of the many kinds I have used during the past fifteen years Champion suits me best of all. Very truly yours,

M. H. JOHNSON.

EAST ST. LOUIS, ILL., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using Champion Fluid for over two years and are well satisfied that it is one of the best fluids made. We are pleased with the results obtained from Champion, and expect to place an order for more in the spring for summer use. Respectfully,

F. J. KURRUS.

GREENFIELD, O., Dec. 11, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have put your embalming fluid to some of the severest tests that it possibly could be put to, and always found it equal to every emergency. One was the remains of a young man eaten up with disease. His joints were eaten out of their sockets and the body was a solid mass of corruption. With Champion I succeeded in putting what was left of him in fine shape in very hot weather. A fluid that will keep a body like that will do anything.

Very respectfully,

WILLIAM CLOUSER.

LEXINGTON, NEB., April 1, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been in business eleven years, and in that time used many makes of fluid, but consider Champion the best. Yours respectfully,

E. H. CLEVELAND.

DANSVILLE, N. Y., Jan. 20, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your Champion Embalming Fluid for four years, and do not hesitate to recommend it to any one wanting a good fluid. I have had over twenty-nine years' experience, and will say that Champion is good enough for me. Respectfully,

PHILIP B. HUPP,

OF ALTMYER & HUPP.

SEWICKLY, Pa., Dec. 13, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your fluid for two years. It is a first-class fluid and has given entire satisfaction. I consider it a reliable fluid in all seasons of the year, and in the worst cases I have to deal with. Yours respectfully,

W. S. MARLATT.

Champion Bulb Injectors

No. 27 Champion Bulb Injector.

No. 27. This Injector is a very desirable one, as the Fluid by its use can be forced into the body in a steady, continuous flow, by means of atmospheric pressure, on the same principle as our Champion Hard Rubber Pumps. It cannot be used as an Aspirator. It consists of Bulb, Goose-neck, Metal Cut-off, and three pieces of our best Red Tubing with rolled ends (40-inch, 28-inch and 10-inch). Price, \$3 00

No. 27a. Goose Neck, with Best Red Tubing, with rolled ends, complete	Price, \$2 00
No. 27b. Goose Neck, with Best Red Tubing, without rolled ends, complete	Price, 1 75
No. 27c. Goose Neck, with White Tubing, without rolled ends, complete	Price, 1 50
No. 28. Same, with best Red Tubing, without rolled ends	Price, 2 75
No. 29. Same, with common White Tubing	Price, 2 25
No. 30. Inflating Bulb	Price, 75

No. 31. The **Champion Bulb Syringe** is extensively used for forcing Embalming Fluid into the body; but its use is being rapidly superseded by the Champion Hard Rubber Pumps, described on pages 34 to 41. Those, however, desiring a Bulb Syringe will find ours made of

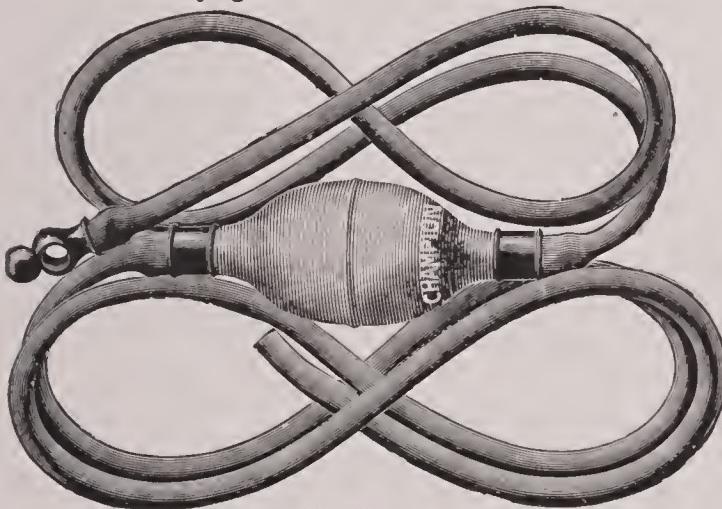

finest quality Red Tubing, with rolled ends. One piece is 40 and the other is 28 inches long; on the end of the latter is a Hard Rubber Sinker. The connections are Hard Rubber Price, \$2 00

No. 32. Same, with best quality Red Tubing, without rolled ends, Price, \$1 75

No. 33. Same, with common White Bulb and Tubing Price, 1 25

No. 34. Bulb, extra quality, with two connections Price, 1 00

No. 35. Bulb, White Rubber with two connections Price, 75

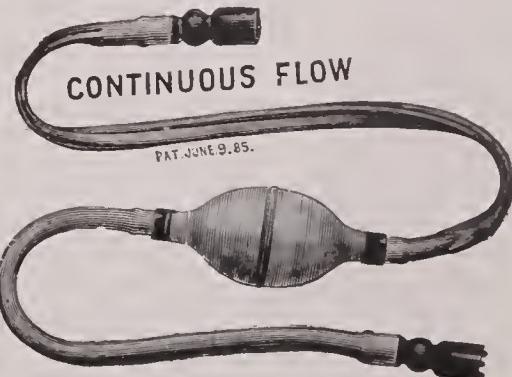

No. 31.

No. 36. The tubing in our **Continuous Flow Syringe** is so constructed that it expands under the pressure of the Fluid, and its tendency to contract, when filled, produces an even and continuous flow. Put up in Case No. 91½ (see page 29), with the following outfit: Continuous Flow Syringe, Champion Arrow Point Embalming Needle, Scalpel, Grooved Director and Aneurism Needle combined, Spring Forceps, Dissecting Scissors, Two Arterial Tubes and Catheter. Price, \$7 50

No. 37. Same, without Instruments or Case.. 2 00

No. 38. Smaller size Price, 1 50

No. 37.

BORDENTOWN, N. J., Jan. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Your Champion Embalming Fluid gives perfect satisfaction. I have been using it for some time and I think it an excellent Fluid, especially in warm weather, as I have kept bodies five and six days in the hottest weather with good results. Yours truly. F. B. KEELER.

INDIANAPOLIS, IND., Nov. 9, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: For the past two years I have used the Champion Fluid. It has been **severely tested without a single failure.** In fact, the result has proven beyond my expectations. Keep up the excellent quality and the success is yours. Yours truly, J. W. FOUTZ.

DAVENPORT, IOWA, Jan. 3, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Having been frequent users of Champion Fluid in the last ten years, we have always had success with it, and it is as good if not **better than any other Fluid on the market.** Yours truly, M. V. BOIES CO., W. D. BOIES, Mgr.

MT. MORRIS, N. Y., Dec. 21, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Your Champion Fluid **has given the best of satisfaction.** I recommend it to the trade. Yours respectfully, F. W. WOOLEVER.

PARSONS, PA., DEC. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: The "proof of the pudding is in the eating." So it is with Champion Fluid in using. **To give it a trial once means to use it all the time.** We did this three years ago, and have used it ever since, and can gladly sound its praise to give satisfaction.

Yours respectfully, KENNY BROTHERS.

IRONTON, O., Dec. 12, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid for some time with excellent success, and shall be pleased to give you an order for more as soon as my stock runs out. **It has given perfect satisfaction in every respect.**

Yours truly, CHARLES L. PIXLEY.

SIOUX CITY, IOWA, Jan. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have much pleasure in **recommending Champion Embalming Fluid to fill all requirements.** Have been in the undertaking business eighteen years in Canada and eight years in Sioux City, Iowa, and have used none better, or quite so good. Yours truly, GEORGE H. KIDD.

KNOX, PA., Dec. 12, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been a Funeral Director for 30 odd years. Did my first work at the Great Western away back in '60. Think I have experience enough to know a good thing when I try it, and I consider Champion Fluid good for both arterial and cavity embalming, and I feel justified in recommending it. Very truly, A. W. HUNTER.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

ELKTON, Md., Dec. 28, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using the Champion Fluid for some time, and used it in a great many bad cases, and find it to be all you claim for it. As a bleacher and preservative it can't be beaten. Yours truly,

R. MARSHBANK & SON.

PORT CHESTER, N. Y., Dec. 14, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: The Champion Fluid has worked well with us, and particularly as a bleacher. We are well pleased with the fluid in all respects. Yours, JOHN SLOAT & CO.

MINNEAPOLIS, MINN., June 14, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Please send us a ten-gallon keg of your fluid. Your fluid is all the name implies. The first ten gallons we had one year before trying; "got in a pinch" where we had to use it, and the results were so good that there is no fluid like it in our estimation. Yours truly,

GILL & PARRY.

WARREN, R. I., Jan. 6, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have just received twenty-five gallons more of Champion Fluid. Having used your fluid for the past two years I find it does the work equal to any fluid I have ever used. Yours, GEORGE M. WILBUR.

STONY BROOK, PA., Jan. 6, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I can recommend your fluid as A No. 1. I have been using it for a number of years, and would not like to be without it. Very truly, C. F. MUSSER.

TECUMSEH, MICH., Jan. 9, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Having done embalming in all its branches for more than fifteen years, I have never found a fluid that gives better results than the Champion, and would highly recommend its use to any one wishing a strictly first-class fluid for all seasons of the year. Respectfully, GEORGE H. TANSLEY.

NEW BLOOMFIELD, PA., Dec. 18, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I do not know that I can find words to express my satisfaction with Champion Fluid I get from you. But I will say when I use your fluid I know that I have a body that will keep for me. Yours respectfully, A. P. NICKEL.

WAUKEGAN, ILL., Jan. 25, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used Champion Fluid in many difficult cases, and in no case have I met with a failure. I recall the case of a young girl that I embalmed with Champion that was so perfectly lifelike that I was repeatedly asked if I had not resorted to the paint brush. Only last night, as I was closing my office, I received a call from the father of a two-year old child (that I had prepared with Champion in the morning) who asked me to come to the house as some of the ladies thought the corpse looked too natural. The child had died with capillary bronchitis, and was very dark about the face and lips after death. In ten hours after being prepared it was restored to the condition that produced the excitement.

Very truly yours,

J. K. BOWER.

COLUMBUS, O., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have now been using the Champion Embalming Fluid for over five years. In that time we have given it some very severe tests, but always found it true and sure. We can heartily recommend it to the profession as a reliable article.

Yours truly,

E. E. FISHER.

KEARNEY, NEB., March 31, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid for twelve years, and many other kinds in that time, and found none to equal Champion Fluid. Can recommend it highly to undertakers who have bodies to transport.

Yours sincerely,

JOHN M. COSTELLO.

So. BOSTON, MASS., Jan. 24, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using Champion Embalming Fluid for almost ten years, seven years of which I was employed by another firm, and three years I have been in business for myself. I have used about every kind of fluid, but Champion is my choice. It is reliable at all seasons of the year, and in the worst cases that a Funeral Director has to cope with.

Yours very respectfully,

LEWIS W. LEARY.

MIFFLINVILLE, PA., Dec. 18, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I am using your Champion Fluid. I have always had splendid success with it, and consider it a most excellent fluid, and just as soon as I need more will order some.

Respectfully,

R. J. BERNINGER.

ST. CLOUD, MINN., Jan. 6, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: The Champion Fluid does all and much more than is claimed for it. Having used several kinds of Fluid, I find Champion superior to any of the others used.

Respectfully,

G. R. CROSBY.

UPPER ALTON, ILL., Jan. 7, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your Champion Fluid for some time with complete success, and regard it one of the best, if not the very best, in use. Yours very truly,

C. N. STREEPER.

FORT PLAIN, N. Y., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Fluid for the past ten years, except for a short time when I was induced to use a cheap fluid. Not having the success I had with the Champion, I have now decided to use only the best (the Champion), with which I have had most excellent success with some of the worst cases that a Funeral Director could have.

Yours respectfully,

E. L. THURWOOD.

HANCOCK, MICH., Dec. 14, 1895.

THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.

ORDER ONLY BY NUMBER.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

DAYTON, O., JULY 20, 1896.

THE CHAMPION CHEMICAL CO.

Gentlemen: We have used Champion Embalming Fluid for a number of years, giving it tests in the course of our business which shows it to be, as we believe, as good as the best all-purpose fluid made. Yours sincerely,

D. FETTERS, of FETTERS & SHANK.

ENGLISHTOWN, N. J., July 28, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have never once regretted being a user of your Fluid, which, I believe, is rightly named "The Champion." As a Bleacher it is without an equal; and no other fluid, as far as I know, gives such uniform satisfaction.

Yours very truly. G. H. HULSE.

MARLBORO, MASS., Dec. 20, 1895.

G. H. HULSE

CHAMPION CHEMICAL CO.

Gentlemen: We have used the Champion Fluid with the best of success. Have used many first-class fluids, but consider Champion the best. Have never had a failure with it.

Very truly, CLINTON COLLINS & CO.

HAZLETON, PA., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been embalming for a period of about twelve years and have used nearly all the best fluids, and am of the opinion that Champion is unexcelled.

Respectfully, CHRISTIAN BACHMAN.

NEWBERRY, PA., July 10, 1896.

CHRISTIAN BACHMAN

CHAMPION CHEMICAL CO.

Dear Sirs: I have used all that keg of Champion Fluid I got of your agent; and I must say it gave the very best of satisfaction. I used the three gallons on four cases, two small women and two large men, and I must say I was highly pleased with it, and had intended to order more direct from you. But there was an agent called on me that I buy funeral goods from, and in order to get it quicker I asked him if he sold the Champion. He said he did, but when it came it turned out to be another fluid. I did not want to send it back, but I will order some Champion shortly, directly from you. I won't depend any more on the jobbers.

Yours truly, JOS. FISHER.

DES MOINES, IOWA, July 3, 1896.

E. J. SELOVER

CHAMPION CHEMICAL CO.

Gentlemen: I was called on Monday evening last, June 29, to take charge of a young man aged 19, who had just died. He had diphtheria, but the immediate cause of death was heart failure and Septacemia. I used Champion Fluid. Body was in fine shape at burial, July 2; could have kept it a week longer. Champion Fluid has one very desirable feature that some fluids do not have—its great affinity for the flesh tissues. Respectfully yours, E. J. SELOVER.

REEDSBURG, O., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I consider Champion Fluid the best bleacher on the market. It does not produce that brownish tinge so objectionable to many fluids. It is a nice fluid to handle, and, more than that, it is a preservative "par excellence." I would not be without Champion. Yours very truly, B. WINTERSTEEN.

LEHIGHTON, PA., June 19, 1896.

HENRY SCHWARTZ

CHAMPION CHEMICAL CO.

Dear Sirs: Please send me — gallons of Champion Fluid. I have been using the Champion Fluid for some time, and consider it my duty to recommend it as the best in the market, because, when I use Champion, I meet with the best success. Yours respectfully, HENRY SCHWARTZ.

Champion Folding Instruments

In Folding Instruments our assortment is more complete and in quality is far superior to that of any other house. The blades in the cheaper grades are fine quality steel, while those in the higher priced grades are made of the very best tool steel. The handles are of Hard Rubber, Aluminum and Tortoise Shell. The Aluminum and Shell Instruments are all provided with catches, which firmly hold the blades when open or closed. Folding Instruments are especially desirable for our Pocket Instrument Cases, as they occupy a minimum of space.

THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

BEAVER DAM, WIS., Jan. 13, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been in the undertaking business for nearly fifty years, and began using the Embalming Fluid when it was first manufactured in Grand Rapids, Mich., and find your Fluid of excellent quality, and as a preserver, bleacher and deodorizer it gives perfect satisfaction. I recently embalmed the body of a showman who had been bitten by a rattlesnake. I shipped the body to a distant point. A letter from the Undertaker informed me that the body arrived in excellent condition and looked as natural as life. He inquired what Fluid I used that was so successful.

Yours truly, C. B. BEEBE.

BOULDER, COLO., March 14, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used Champion Fluid and found it an excellent bleacher.

Yours truly,

J. G. TREZISE.

WILLMAR, MINN., Jan. 12, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I can say that Champion Fluid has given me better results than any other fluid I have ever used, and hereafter I will use no other Fluid but yours.

Yours truly,

I. C. OLSON.

TROTWOOD, O., Jan. 31, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your Champion Fluid for the last ten years and always found it to be what is claimed for it. I have never yet had a failure with it when properly used, and I have had some bad cases. I consider it a No. 1 Fluid. Wishing you success, I remain,

Truly, W. H. BOYER.

RARITAN, N. J., Feb. 19, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your Champion Fluid for the past three years and find it a very satisfactory article. The results from its use have been highly satisfactory to me.

Yours respectfully, JOHN F. BRADY.

GREENSBORO, MD., Jan. 9, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using Champion Fluid for some time, and will say I have always had splendid success with it, and consider it a most excellent Fluid. Respectfully,

C. H. PRITCHETT.

WEST MANSFIELD, O., Dec. 21, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your Champion Fluid for the past five years. It is an excellent Fluid and has given us the best of satisfaction, both as a preserver and bleacher.

Respectfully yours, L. LANE & SON.

ALTOONA, PA., Jan. 18, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: The Champion Fluid is well named. In my experience it is Champion of all fluids. Its good reputation is here to stay. To try Champion is no experiment. Its worth has been proved by thousands of successful Funeral Directors. As a bleacher it has no equal. It leaves a lifelike appearance. Wishing you every success in the sale of Champion Fluid. I am ^ Very respectfully, GEO. V. ROLLINS.

HOUTZDALE, PENN., Dec. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using your Fluid for several years for the most difficult cases, and the results have been excellent. We can safely say that any Funeral Director can have good success with your fluid.

Respectfully yours,

STRAYER, RIBLING & CO.

NOBLESVILLE, IND., Nov. 2, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Please send me twenty gallons of Champion Embalming Fluid. Have been using it the past year and find it the best in the market. Always gives satisfaction.

Yours respectfully,

JOHN E. LAKE.

JOHN E. LAKE

A. RIBLING

W. H. LANDIS

MINNEAPOLIS, MINN., Dec. 27, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: The barrel of Champion Fluid you shipped us has proven entirely satisfactory. We think there is none better.

Yours truly,

W. H. LANDIS.

MECHANICSBURG, O., Jan. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I am often asked how long can the remains be kept. I tell them to place the funeral when they like, if it is weeks ahead, fully realizing that I have concealed in my grip Champion Embalming Fluid which does the work. One case I now call to memory, the remains of a lady weighing 250 lbs. Only intended keeping her two days, and simply gave the corpse cavity embalming, having placed the body in the vault until some change would take place in the remains. They were left in the vault thirty days, but Champion Fluid would not let them change, so I can heartily recommend it to the fraternity.

HUPP & SON.

QUAKERTOWN, PA., Dec. 28, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: In our experience as funeral directors for many years, we find the Champion a most excellent Fluid. It has always proven successful and satisfactory. We can therefore recommend it to the trade.

Yours very truly,

AARON BALL & SONS.

LAKE BENTON, MINN., Jan. 6, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We can heartily endorse the testimonials in behalf of your Champion Embalming Fluid, and find it all it is represented to be—excellent and reliable—and would recommend it to the trade.

Yours truly,

J. B. DAVIDSON.

PHILLIPSBURG, N. J., Jan. 16, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I used other fluids with fair success, but I think Champion has the right name and is superior to all other fluids, and I will stake my reputation on the same. I will use no other.

Yours,

P. F. HAGERTY.

ROCK RAPIDS, IOWA, Jan. 13, 1896.

CHAMPION CHEMICAL CO.

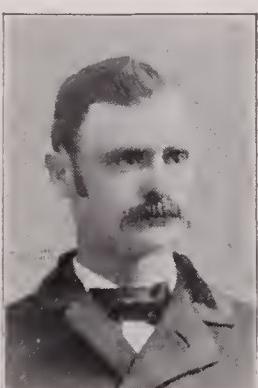

Gentlemen: We take pleasure in recommending your Fluid to the trade. We have used it, and find it the best we have ever used. Please send another keg at once. Enclosed find draft for last shipment.

Yours truly,

CHAMPION ARROW-POINTED EMBALMING NEEDLES

PATENTED JULY 28, 1896.

KEEPS SHARPER, PENETRATES STRAIGHTER, THAN ANY OTHER STYLE

Champion Arrow-Pointed Embalming Needles are so much superior to any other kind that they are fast superseding the old styles. The price charged for such a grade of instruments is remarkably low. Once use Arrow-Pointed Needles and you will be satisfied with no other.

The Arrow point is made of highly tempered steel, and is nickel-plated, so that it keeps clean and perfectly sharp. It will cut its way through clearly and enter the viscera, especially into the intestines when full of gas, in a manner very superior to the common Embalming Needle. If you wish to tap the heart, it will cut through smoothly and evenly, and not tear the flesh, and by turning it one-quarter way round it will make a clear opening, and not clog up.

HARD RUBBER, Metal-Lined, with Nickel-Plated Steel Point

This style will neither corrode nor become rusty and rough; consequently there is a constantly growing demand for them. An Embalmer who once uses them will never afterwards do without them.

CAUTION—Be careful in ordering and always give the RIGHT number, as every size and kind has a distinct number.

ALUMINUM EMBALMING NEEDLES

We have not quoted prices on **Aluminum Needles**, for the reason that practical experience has demonstrated that instruments coming into direct contact with the Fluid, when made of Aluminum, are quickly injured by the action of the Fluid. Besides, on account of the softness of the material, the points, edges and corners of such instruments are liable to be nicked and injured in handling. They also soon lose their luster, and become tarnished.

CAUTION—Be careful in ordering and be sure you give the *RIGHT* number, as every size and kind has a separate number.

THE CHAMPION CHEMICAL CO.

ORDER ONLY BY NUMBER

SPRINGFIELD, OHIO.

JAMES H. FETTER

PERU, IND., Nov. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We used one barrel of your fluid with good success, and before finishing it consented to order other kinds of fluid on trial, but have decided to return to the "Champion," having recently ordered another lot from you. I have used all the best known fluids on the market.

Respectfully yours,
JAMES H. FETTER.

POCATELLO, IDAHO, Dec. 25, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have only used one barrel of your Champion Fluid, but with that I had occasion to embalm and ship several bodies, giving it a thorough test, which, in every case, gave the best of satisfaction. As a bleacher I have never found anything to equal it. It does all you claim for it, and I can honestly recommend it above all other fluids I have used. I am nearly out, and will send in another order soon.

Respectfully. M. WEDEKIND.

PAWTUCKET, R. I., Dec. 12, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid upon more than three hundred cases, and am satisfied with the results. I have had no reason to change, and have not done so. Your fluid, I would say, is improving, if such a thing were possible.

Yours truly, WILLIAM H. O'NEILL.

SIOUX FALLS, S. D., Dec. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: In the last seven years I have tried all the best known fluids on the market, but like Champion best. I used Champion on a body weighing 250 pounds, died with dropsy. I was telegraphed for, and found the body in a horrid state. Mortification had set in. I got the body in fine shape and looking natural again, and kept it four days when the funeral took place.

Yours truly, H. BILLION.

LITTLE ROCK, ARK., Nov. 13, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your fluid only for several years, and we are entirely satisfied with the results. We know it to be one of the best fluids on the market.

Respectfully yours, G. E. JONES.

MARIETTA, PA., Dec. 30, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using Champion Fluid for some time with success in every instance. It is a strictly first-class article, and as such would recommend it to the trade.

Very respectfully yours, S. F. FREY.

ATTICA, O., Dec. 19, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used nothing but the Champion Fluid for the last two years, and have had the best results on all kinds of cases, and consider it the best on the market.

Yours truly, S. WEAVER.

PITTSBURG, PA., Sept. 20, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using your Champion Embalming Fluid for a period of almost ten years, and in all that time we have not had a single failure. We consider it reliable in all seasons of the year, and in the worst cases that a Funeral Director has to cope with. Yours respectfully,

MCNULTY BROS.

G. E. JONES

S. F. FREY

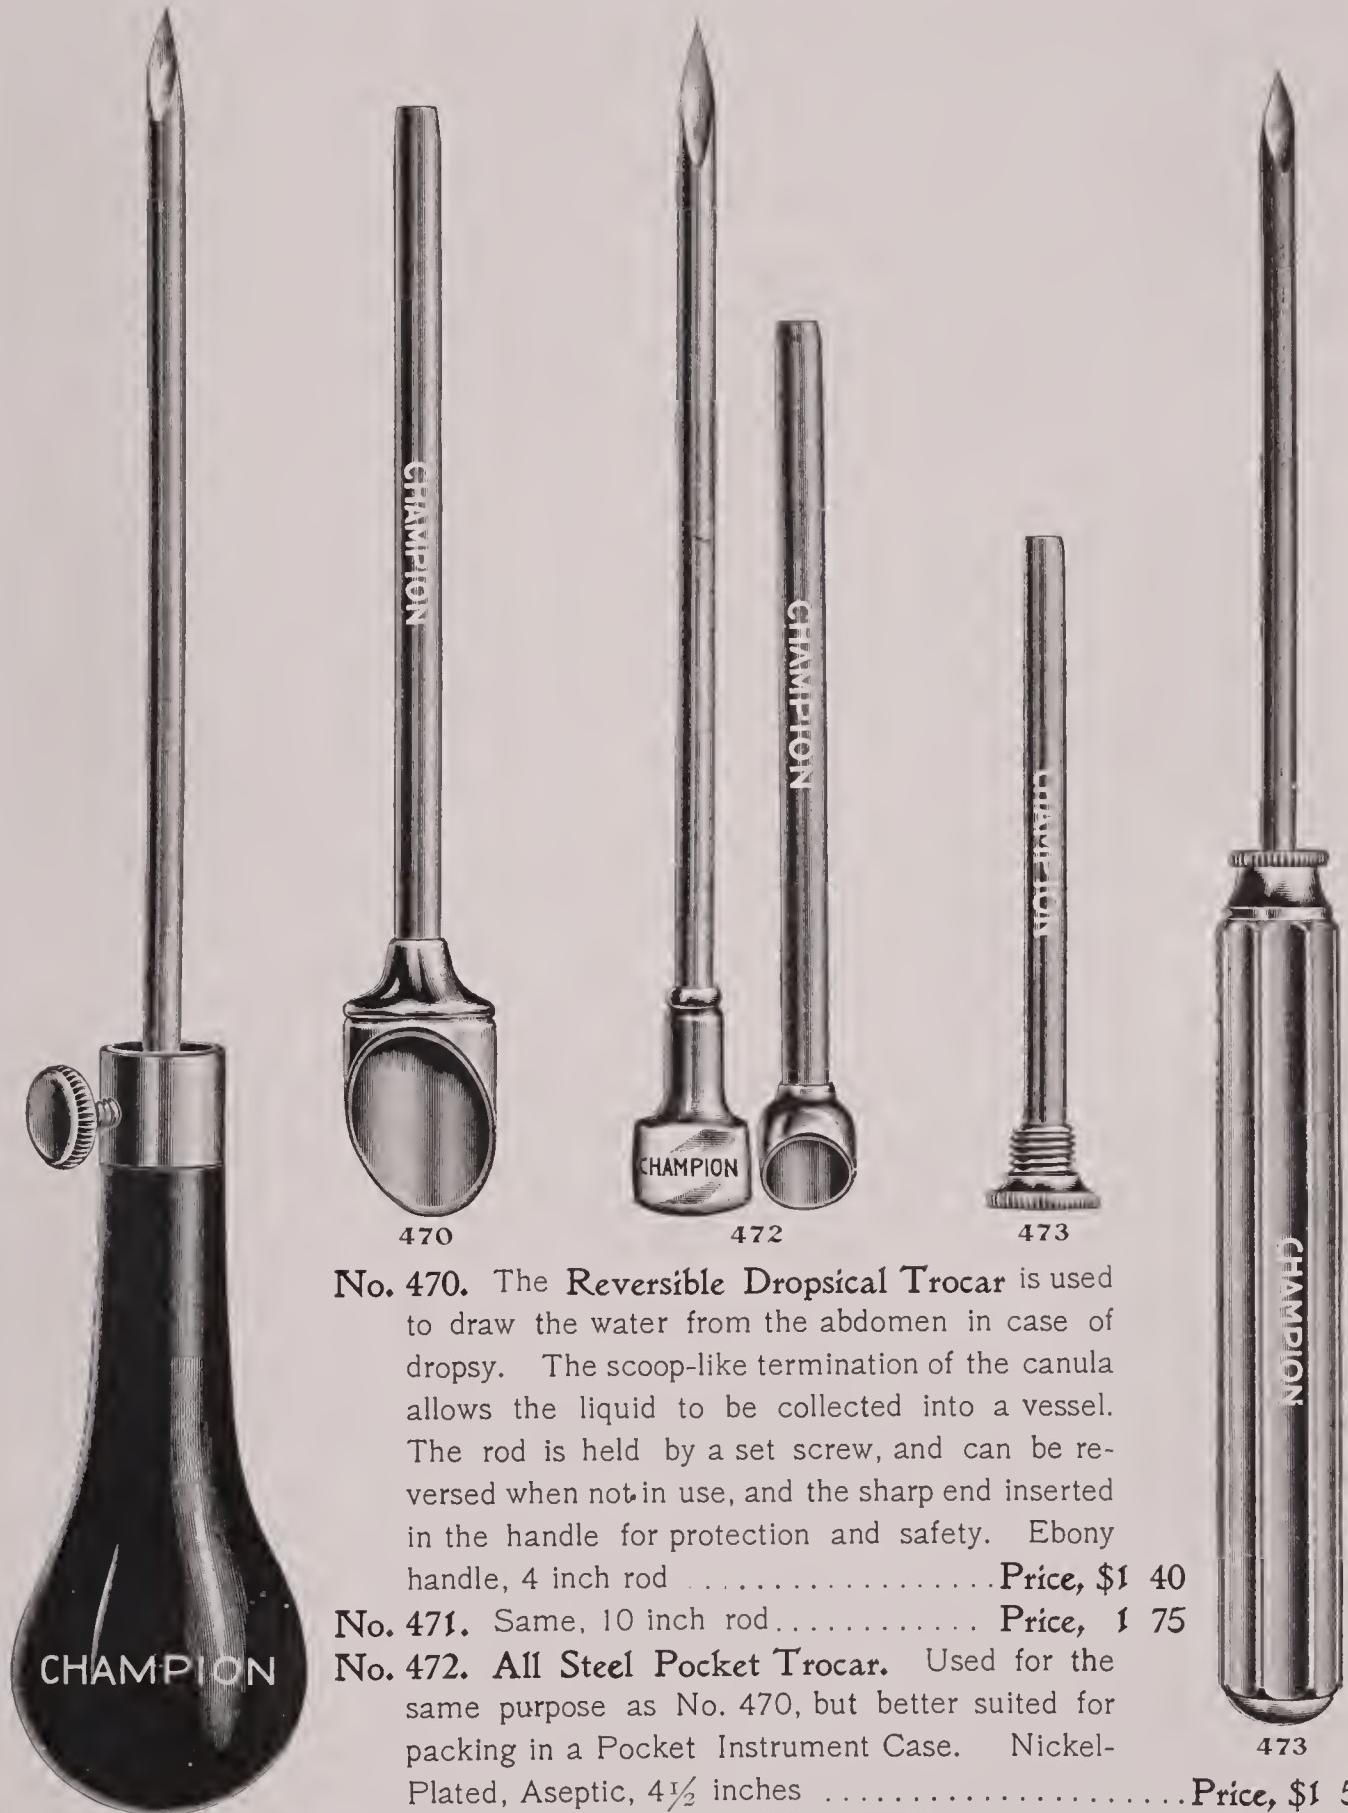

S. WEAVER

JOHN R. MCNULTY

Champion Pocket Trocars

No. 470. The **Reversible Dropsical Trocar** is used to draw the water from the abdomen in case of dropsy. The scoop-like termination of the canula allows the liquid to be collected into a vessel. The rod is held by a set screw, and can be reversed when not in use, and the sharp end inserted in the handle for protection and safety. Ebony handle, 4 inch rod Price, \$1 40

No. 471. Same, 10 inch rod Price, 1 75

No. 472. All Steel Pocket Trocar. Used for the same purpose as No. 470, but better suited for packing in a Pocket Instrument Case. Nickel-Plated, Aseptic, 4½ inches Price, \$1 50

No. 473. All Steel Reversible Trocar. This is a very desirable instrument. When reversed and fastened into the hollow handle it only measures 3½ inches; rod 3 inches. Nickel-Plated, Aseptic Price, \$1 50

The Cuts on this Page
are All Full Size.

ORDER ONLY BY NUMBER.

THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.

MRS. L. M. WHITE

CHAMPION CHEMICAL CO.

Gentlemen: I have used other fluids, but I find none that gives bodies such a lifelike appearance as Champion. I consider it reliable in all seasons of the year. I have not used an ice-box but once in over two years, and then it was by special request of the family. Yours respectfully,

MRS. L. M. WHITE.

CLINTON, IOWA, Feb. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid several years, subjecting it to the most severe tests, and so far without failure. Have kept several cases from seven to eight weeks exposed to atmosphere without perceptible change in appearance. In fact, I consider it thoroughly reliable under any extremes of temperature, and practically perfect as a preservative.

Yours truly,

FRANK SUTTON.

ONEIDA, N. Y., Jan. 8, 1896.

CHAMPION CHEMICAL CO.

Dear Sirs: After using your fluid for about twelve years I pronounce it the best fluid on the market. Have tested it in the most severe cases, and always found that it would stand the test. I never had a failure with it. Yours very truly,

G. AUDAS.

DAYTON, O., Dec. 10, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using the Champion Fluid for more than five years, and consider it the best Embalming Fluid that I have used, as I have yet to meet my first failure with it. Respectfully yours,

BEN J. WESTBROCK.

HAZELTON, PA., Jan. 16, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your Champion Fluid for four years, and it gives me pleasure to acknowledge the good success I have had since that time. I have used, and still use, none other but Champion. Yours respectfully,

JOHN F. REINHART.

WEST SOMERVILLE, MASS., Nov. 16, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I received the barrel of Champion Fluid all right. I have now used Champion Fluid for four years, and have had the best results in very bad cases, and gladly testify to its merits. Would not like to be without it, as I consider it the best fluid on the market. Truly yours,

W. A. FRINK.

TROY, O., Feb. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion long enough to convince me that any person who has a failure with it knows very little about the art of embalming. Yours truly,

ELMER E. THOMSON.

CORPUS CHRISTI, TEXAS, Feb. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I will take the liberty of notifying all Undertakers and Embalmers not to use any other fluid than Champion. I have been using it for some time, and always with splendid success. It is an excellent fluid.

Yours respectfully,

A. A. MYERS.

Champion Catheters and Hard Rubber Tubes

CHAMPION

No. 480. English Flexible Catheter. Provided with a durable brass wire for cleaning the tube. Ten sizes: 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12. Price, each, 15 cents.

Champion Hard Rubber Nasal Tubes.

The Nasal Tube is used to introduce fluid into the Esophagus, or trachea, through the nasal passages or through the mouth. They are made of the best hard rubber.

No.	Price Each
485, Large; for adults	7½ inches \$0 50
486, Medium; for youths	7½ inches 50
487, Small; for infants	7½ inches 50
Champion Steel Nickel-plated Nasal Tubes.	
*488, Large	9½ inches 75
*489, Medium	9½ inches 75
*489½, Small; for infants	9½ inches 75

Champion Dropsical Trocar, or Cavity Exhausting Tube.

This is a blunt, hollow instrument, perforated one-third of its length. Its use is to remove dropsical water from the abdomen. On account of its bluntness its introduction into the abdominal cavity is not attended with danger of injuring or destroying any arteries or other tissues.

No.	Price
490, 10 inches	\$1 00
491, 12 inches	1 25
492, 14 inches	1 25

497, 14 inches	1 25

**THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.**

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

SUMNER FLOYD

CHAMPION CHEMICAL CO.

Gentlemen: To attest the merits of Champion Embalming Fluid, after its exclusive use for the last five years, is a pleasure. It has never failed me in a single case at any season of the year. **The uniform standard maintained in its quality and price is best proof of its merits.** With an increasing business I have no use for the so-called cheap fluids, used only with doubtful results; on the contrary, I shall continue the use of the Champion Fluid so long as its manufacturers maintain its quality.

Yours truly,
SUMNER FLOYD

WARSAW, IND., Dec. 2, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion Fluid ever since it was introduced in this State, and have found it always reliable. **Will use no other.** Yours truly,

R. C. SMITH.

R. C. SMITH

WILLIAM ARNOLD

CHAMPION CHEMICAL CO.

Gentlemen: We have been using your fluid quite a long time, and have used numbers of other fluids, but find Champion Embalming Fluid far superior. Respectfully,

WILLIAM ARNOLD & SON.

WILMINGTON, N. C., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for five years or more, and I will say that I have always had splendid success with it, and consider it a most excellent fluid. Respectfully,

ED. GREEN.

ED. GREEN

GEORGE O. WILLEVER

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your fluid for the last year, and it has given perfect satisfaction. Respectfully,

GEORGE O. WILLEVER.

HURON, O., Dec. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Your agent called on me last spring for the first time, and I gave him an order. I find the fluid as represented by him to be an excellent fluid, and it has met all requirements.

Yours truly,

FRANKLIN L. KROCK.

FRANKLIN L. KROCK

ALLEN S. BELL

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid in very bad cases, and find it an excellent article. I used it in a case of peritonitis, and kept the subject six days in the month of July, and shipped it by rail thirty-five miles, and then hauled overland fifteen miles over a rough road, and the subject was all O. K. I never lose my sleep when I have a body embalmed with Champion Fluid.

Respectfully,

ALLEN S. BELL.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for five years. Will say that I have always had good success, and consider it the very best fluid on the market. Yours respectfully,

HENRY RELYEA.

HENRY RELYEA

FAIRPORT, N. Y., Jan. 30, 1896.

Champion Arterial Tubes

The **Champion Arterial Tubes** are made in both Hard Rubber and Metal, Nickel-Plated, and are especially fine instruments. They are intended for insertion into the arteries into which it is desired to inject Fluid. With many, the six-inch tubes are having the preference, as they can be inserted further into the artery beyond the point of incision.

METAL, NICKEL-PLATED.

ORDER ONLY BY NUMBER

SPRINGFIELD, OHIO.

PORTLAND, ORE., Feb. 1, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used Champion Fluid for a long time, and it is sufficient to say that it suits us. We think we know what a good fluid is. Yours truly,

DUNNING & CAMPION.

CLEVELAND, O., Feb. 28, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Have used your fluid for the past ten years and find it perfectly satisfactory. It will preserve a corpse in all kinds of weather and for any length of time, as I have found by experience in several cases.

Yours truly,

CHARLES STEINMETZ.

CHARLES S. STEINMETZ

G. D. DUNNING

JAMES T. BRETT

MILWAUKEE, Wis., Nov. 23, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for several years, and it has always proved a success. I would not feel safe without it. Respectfully yours,

JAMES T. BRETT.

E. C. MILL

IDA GROVE, IOWA, March 12, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I am well pleased with your Embalming Fluid. I have never had a failure with it.

Yours truly,

E. C. MILL & CO.

ABILENE, KAN., April 1, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion Fluid and have found it to be an excellent preserver and bleacher. Have never had a failure. Yours very truly,

W. H. EICHOLTZ.

CHARLES DIBLE

BINGHAMTON, N. Y., Feb. 14, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I take the liberty to say to you I have never had reason to regret making the first trial of your fluid, which was some seven years ago, and I find it better in quality now than then. Yours respectfully,

CHARLES DIBLE.

W. H. EICHOLTZ

WM. COULDWELL

TOLEDO, O., Dec. 14, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I am using your fluid and have given it good, fair tests, and am well pleased with it. I shall send you a duplicate order as soon as fluid on hand is used.

Respectfully yours,

WM. COULDWELL.

A. B. REIF

SUMNER, IOWA, Jan. 10, 1896.

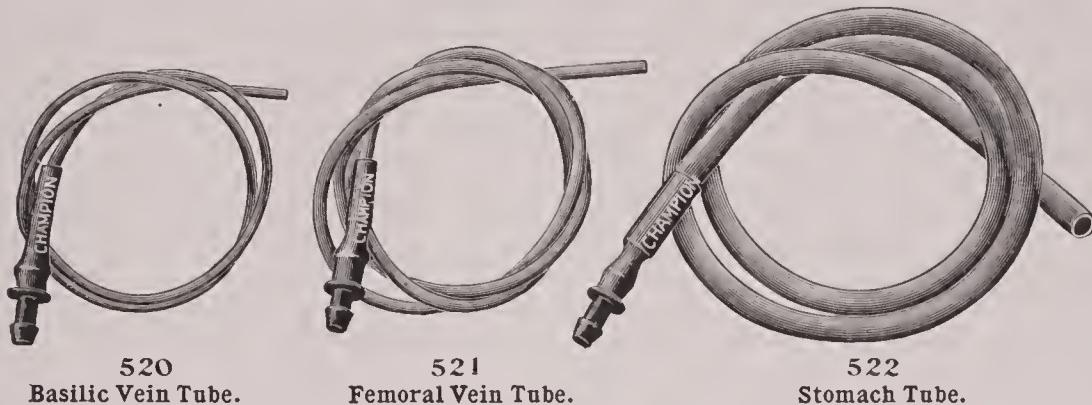

CHAMPION CHEMICAL CO.

Gentlemen: Did you ever lose any sleep because of a lack of confidence in the fluid you used? If so, don't fail to give Champion Embalming Fluid the next trial, as it will do all and even more than is claimed for it as a preservative, besides being a perfect disinfectant and bleacher.

Yours truly,

A. B. REIF & CO.

Champion SILK-WRAPPED Flexible Tubes

The **Champion Silk-Wrapped Flexible Tubes** are of the best manufacture and are very flexible and durable, being practically unaffected by cold or the corrosive nature of embalming fluids. We now ship these Tubes in large, square, pasteboard boxes.

No. 520. Basilic Vein Tube. This tube is used for draining blood from the head, neck and right auricle of the heart, which is the center of the venous system. This can be done without any mutilation whatever of the heart, and without the loss practically of a drop of blood. The Flexible Tube is introduced into the left basilic vein, passed upward through the axillary and sub-clavian veins and downward through the left innominate and superior vena cava veins into the right auricle of the heart. After the tube has been thus inserted the Aspirator is attached to the Tube, and during the operation the Tube should be worked slowly back and forth in order to bring the opening in its end at the junction of the right innominate, the left internal jugular and other smaller veins. After the tube is withdrawn the basilic vein is securely tied above and below the incision. The object of using the left basilic vein is owing to the fact that the venous course from the left basilic vein to the right auricle of the heart is a more gradual curve than that of the right side. Length 24 inches. Five sizes: 8, 9, 10, 11, 12 and 14..... **Price each, \$1 25**

No. 521. The Femoral Vein Tube is used for the purpose of drawing blood from the heart through the femoral vein when that vein is preferred to the basilic vein. Length 33 inches. Five sizes, 8, 9, 10, 11, 12 and 14..... **Price each, \$1 75**

No. 522. The Stomach Tube is intended for removal of the contents of the stomach and injecting fluid into the alimentary canal. Length 33 inches. Five sizes, 14, 15, 16, 18 and 20..... **Price each, \$1 75**

In ordering these Tubes always add size desired to Tube number.

Champion Patent Eye Surgeons' Needles

These Needles have a split head through which the thread is passed without the usual tedious process of threading through the eye. While these needles are very convenient, they are not as durable as the common eye needles.

No. 524, Full Curve ...	{	Price each, 10 cts. or 3 for 25 cts.
No. 525, Half Curve ...		
No. 526, Straight		

We keep in stock the following sizes of each number: 2, 4, 6, 8, 10 and 12. Other sizes furnished on short notice.

H. C. SHURTLEFF, M. D.

CHAMPION CHEMICAL CO.

Gentlemen: It gives me pleasure to state that in my experience Champion has fully vindicated its name.

Very truly yours,

HENRY C. SHURTLEFF.

ALBANY, N. Y., Nov. 8, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have just received your last shipment of thirty-two gallons of fluid. It is giving me the best of satisfaction. I have tried a number of kinds, but I find Champion Fluid is the best, and I think I may safely say superior to all others.

Yours very respectfully,

M. E. NANGLE.

HUNTINGTON, IND., Nov. 15, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your fluid for the last two years, and it has always given me entire satisfaction, and I can cheerfully recommend it.

Yours truly,

M. B. STULTS.

CASCADE, IA., Dec. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Champion is the best all around fluid I ever used. I have been embalming for the last seventeen years, and, while I never used cheap fluid, I must say I have had the best results from the Champion. I can conscientiously say to my brother Embalmers, that if they will properly distribute Champion Fluid they need have no fear of the results under the most unfavorable circumstances. I find by experience that the Champion hardens the flesh in a short time. It does not shrink the face, but gives and retains a lifelike appearance, and is a good bleacher. Respectfully,

S. B. BEATTY.

NAPOLEON, O., Dec. 15, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I can cheerfully and very highly recommend the Champion Embalming Fluid. After giving it a thorough test through arterial embalming, can say it has given good results.

Yours truly,

DAVID HARMON.

PHILADELPHIA, PA., Dec. 13, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used a great many embalming fluids, and have had success and have had some failures, and to be successful with any fluid, one must be possessed of skill and science; but I must admit, without flattery or inducement, that one with skill enough to raise an artery and inject Champion Fluid has all the science necessary and must have success, as I know from experience.

Yours very truly,

CHARLES N. TITLOW.

OF TITLOW BROS.

CENTER POINT, IA., Jan. 5, 1896.

Champion Hypodermic Syringes

No. 530. Glass Barrel Syringe.

No. 533. This Syringe is the same as No. 530, while the case is smooth Hard Rubber with cavities countersunk in both sides for holding contents. The cavities for bottles will contain either single bottle for solution, or four small bottles for tablets. This case is self-closing and remains closed without catch. We consider this our best syringe. The case being flat and rounded and made of hard rubber, can be easily carried anywhere, and without danger to the case and contents being broken. It can be perfectly cleansed in a moment. \$3.00.

No. 530. Glass Barrel Syringe. Protected by double fenestrated metal cylinder, with finger rests; has two needles; is graduated on piston. Put up in fine Morocco Case, with brass hinges Price, \$2 25

No. 531. Same, in Metal Case. Price, 2 75
No. 532. Same, in Aluminum Case. Price, 3 25

No. 533 in Hard Rubber Case.

Champion Hypodermic Needles

The Hypodermic Needle is a convenient and valuable instrument which every Funeral Director should possess. Frequently discoloration makes its appearance under the skin of the face or hands, which, by the use of this Needle, can be removed by the injection of Champion Embalming Fluid, which is a remarkable bleacher.

No. 534. Hypodermic Needle. Best steel, nickel-plated seamless tube, will not split, get rough, nor rust as easily inside as will a tube with a seam. Much superior to the needles usually sold..... Price, each, 40 cents.

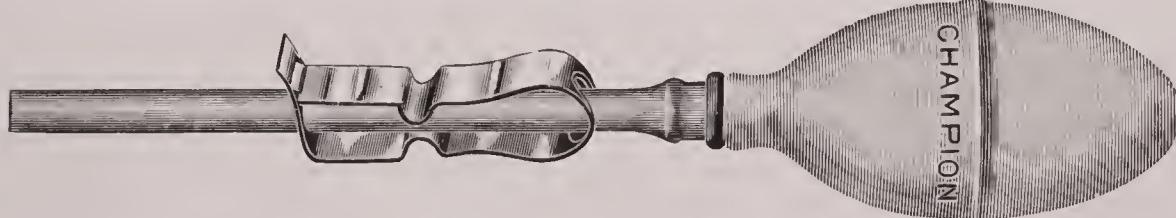

No. 535. Hypodermic Needle for Aspirating. Best Steel, nickel-plated. 3 inches. Price, each, 75 cents.
*No. 535½. Hypodermic Needle for Aspirating. Best Steel, nickel-plated. 4 " Price, each, 75 cents.

No. 536. Hypodermic Trocar. Best steel, nickel-plated..... Price, 75 cents.

Champion Hypodermic Bulb, or Injector

No. 537. The Champion Hypodermic Bulb, or Injector, is provided with a metal cut-off, which permits it being filled with the hypodermic solution without danger of the contents escaping. It contains sufficient of the solution for the majority of cases, and can be used at a moment's notice by adjusting the hypodermic needle in the elongated tube and releasing the cut-off. The hypodermic solution being non-corrosive does not attack the injector nor destroy its elasticity. \$0 50
No. 539. Hypodermic Injector and Needle, (Nos. 535 or 535½) Price, \$1 15

W. H. OPLINGER

WADSWORTH, O., Nov. 23, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: The fluid does all your agent claimed for it. Expect to try more next spring when warm weather sets in. At present have plenty of another kind on hand for cool weather.

Yours respectfully,

W. H. OPLINGER.

GRAND ISLAND, NEB., Feb. 4, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been in the undertaking business for fifteen years, and I have used different kinds of fluid, and I can say I have always had the best of success by using Champion. I have kept bodies ten days, and without any appreciable change in their features. Have never failed in the preservation of bodies when Champion Fluid was used.

Respectfully yours,

J. C. TROYER.

J. C. TROYER

T. R. OSBORNE

NEW SHARON, IOWA, Feb. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: The Champion Embalming Fluid has given us entire satisfaction. I have had some of the most severe cases, and Champion has done its work to a charm. I never worry about my dead after using Champion. I would recommend Champion to any Embalmer who wants his work well done.

Yours truly,

T. R. OSBORNE.

OF OSBORNE & WATLAND.

W. C. WRIGHT

HARRINGTON, DEL., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Having used Champion Fluid for the last four years, in the hot weather as well as cold, I have always found it perfectly satisfactory. As a bleacher it has no equal.

Yours respectfully,

W. C. WRIGHT.

NORTH TONAWANDA, N. Y., Jan. 29, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your fluid for the last six months, and will say we think it is the best article we have yet tried. During the summer months we embalmed many cases for shipment, and have always found that Champion will do the work in a satisfactory manner.

Yours truly,

WATTENGEL & REED.

ORDER ONLY BY NUMBER.

SPRINGFIELD, OHIO.

JUSTIN E. PATTERSON

CHAMPION CHEMICAL CO.

Gentlemen: Permit me to thank you for the fluid which at one time I reluctantly ordered. It is a fluid pleasant to handle, with an agreeable odor, and is a good preserver. Yours is rightly named Champion. May we have some more for Southern California when our present barrel is gone?

Respectfully yours, J. E. PATTERSON.

BALDWINSVILLE, N. Y., Nov. 4, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Send us a 10-gallon keg of Champion Embalming Fluid. We are all out, and you cannot start this any too quick. We have used several different kinds of fluid, but Champion suits us best.

Yours truly,

E. B. BROWN & CO.

MILTON, Wis., Jan. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We are having splendid success with the Champion Fluid. It is a good bleacher, none better for arterial work. Here is what Henry Allen & Son say of a body we embalmed with Champion Fluid and shipped to Norwich, Conn., last spring: "We are glad to be able to say that the body arrived in splendid condition, gives evidence of thorough and honest work."

We have proven that it can be depended upon under all circumstances. Respectfully yours, COON & SHAW.

EAST MAUCH CHUNK, Pa., Dec. 11, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I am using the Champion Fluid to my entire satisfaction.

Yours very truly, F. SCHWARTZ.

SHERIDAN, IND., Jan. 16, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used two half barrels of Champion Fluid, and we regard it as being a very strong fluid and an extra good preserver. Very respectfully,

STARBUCK & HIATT.

BROWNSVILLE, Pa., Dec. 16, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I tried six or eight kinds of Embalming Fluid before I struck Champion. July 1, 1890, I embalmed a body that died of dropsy and weighed over 300 pounds. I did not see the corpse until next day, and it smelled so that no living person could stay in the house. I kept the body eight days until the mother arrived from Salt Lake City. She said her son looked like when he walked the streets. I said, Champion! Champion! you take the cake; go up head. I have been in the undertaking business 21 years, and have attended over 3,400 funerals, and am good for fifty years yet.

Yours truly, J. G. SANFORTH.

ST. PAUL, MINN., Nov. 11, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used several barrels of Champion Fluid in the last five years. I have changed several times to other fluids, to give them a trial, but have always fallen back to using the Champion. I expect to use it as long as I remain in the undertaking business. I can recommend same to all wanting a good fluid, as it is never-failing.

Yours truly, J. A. WILLWERSCHEID.

JAMESTOWN, O., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

CHAMPION PATENT ALL-RUBBER SUCTION LEECHER Or Cupping Instrument

Patent Pending.

INTERIOR VIEW.
Showing Puncturing Points.

A Radical Departure in Leechers. Far superior to any other now on the market.

For aspiration of subcutaneous, dropsical effusion from any portion of the body, it is unequalled. Equally useful in removal of slight discolorations upon the surface,

AND FOR ALL PURPOSES FOR WHICH A LEECHER, OR CUPPING INSTRUMENT, IS EVER USED.

Not only Best but Cheapest.

Can Be Easily Taken Apart and Cleansed.

The Champion All-Rubber Leecher consists of two parts, a bell-shaped cup of best red soft rubber, and a puncturing head of hard rubber, provided at the lower end with a number of needle-like points, and at the upper end with a connection for attaching the aspirator. When placed on the part of the body from which the water is to be removed the flexibility of the soft rubber cup allows the puncturing points to be pushed down so as to puncture the skin, returning to its original position when released. Upon attaching and operating the aspirator the rim of the cup readily conforms to the surface, however uneven, and a perfect vacuum is the result, causing the water to flow through the punctures into the cup. By continuing the operation the water can be speedily and completely removed.

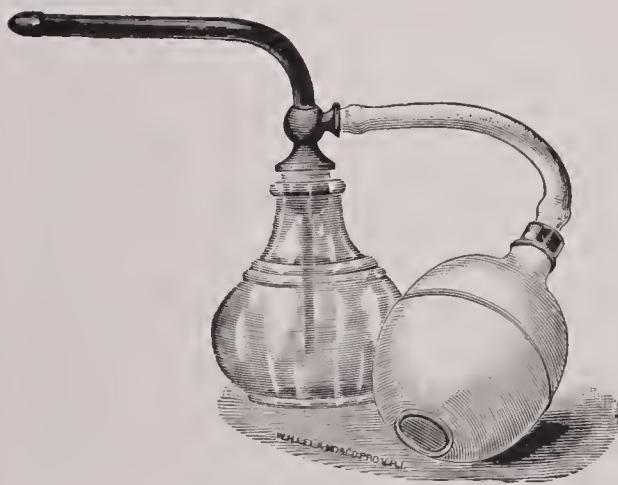

EXTERIOR VIEW.
Showing Cup and Connection.

*No. 564. Champion All-Rubber Leecher, put up in a neat box..... Price, \$1 50

Champion Cut-offs

No. 565. Hard Rubber.

No. 566. The Champion Metal Spring

Cut-off is equally well adapted for stopping the flow of fluid, which it does completely, but it cannot be used to regulate the flow.....

No. 566. Metal.

Price, \$0 20

No. 567. The Champion Automatic Cut-off, or **Float Valve**, should always be used when fluid is injected into the arteries by means of atmospheric pressure. It is placed on the discharge tubing leading from the goose-neck into the fluid. As the fluid is discharged from the bottle the **Float** (2) follows down the stem (1), and before the fluid is discharged sufficiently to allow the air to enter the openings (4) (4), the **Float** (2) closes them, and thus prevents any air going into the artery. The Cut-off can be readily cleaned of any sediment from the fluid by simply removing a screw plug from the base (3).

Price, \$0 75

***No. 568. Champion Hard Rubber Connecting Cut-off.** (see page 116). Price, \$0 50

Champion Chin Supporters

No. 570

No. 570. The Champion Hard Rubber Chin Supporter is, by all means, the best supporter on the market. It is made in two parts. The inner slide, to which is attached the chin rest, is notched its entire length, so that, as it is pulled out, it catches on the corresponding notches in the outer part, and is firmly held. The support, when closed, is three inches long (exact size of cut), and is capable of being extended two inches, which allows it to be adjusted exactly for each subject. When it is desired to shorten the supporter the inner slide is turned one-fourth round, and it will readily slip back. The Slide is notched half-way around, allowing the foot of the Supporter to be placed parallel to, or at right angles with, the rest

JACOB GEREND.

JACOB GEREND

Champion Eye Caps

Should be used on every subject. Guaranteed to be the Most Perfect and Satisfactory ever Offered to the Trade.

No. 575

Are Indispensable when Remains are to be Shipped any Distance, and on all Consumptive Cases.

THE CHAMPION EYE CAPS WILL NOT LOSE THEIR SHAPE IN WARM WEATHER.

They keep the eyelids closed and preserve the natural fullness of the eyes, after death. They are made by a newly invented process, and are the best Caps ever offered to the trade. The body of the Cap is made of specially prepared wax that is not affected by hot weather. They are all alike in shape, size and beauty of finish, and are far superior to the shapeless, irregular and common caps generally furnished to Embalmers.

They can be readily adjusted to suit any shaped eye. For children, trim off the Cap to fit the size of the eye.

Directions for Using—Introduce the Cap under the lower eyelid, and bring the lid up over the Cap; then pass the Cap under the upper eyelid, and bring the lid down over the Cap far enough to partly cover the lower lid if possible.

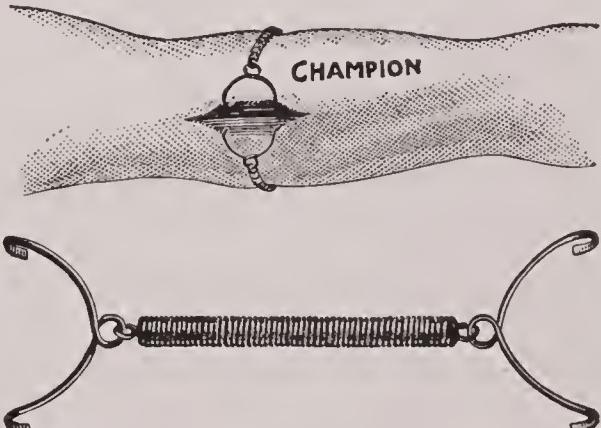

Price, 75 Cents Per Dozen.

No. 576. Chain and Hooks.

This is a small brass chain, with hooks on the ends, which may be passed around the arm or leg, and the hooks attached to the edge of an incision made to raise an artery, so as to keep the wound open for convenience in operating. The accompanying cut well illustrates its use.

Price, \$0 25

No. 577. Automatic Stretcher.

The **Automatic Stretcher** is used for the same purpose as No. 576, but is much simpler in construction and easier to handle. It is made of best steel wire, and heavily nickel-plated, and is altogether a superior grade of goods. Its working can readily be understood from the cuts above Price, \$0 50

THE CHAMPION CHEMICAL CO.
SPRINGFIELD, OHIO.

ORDER ONLY BY NUMBER.

Champion Seamless Rubber Gloves

Are made from the purest Para rubber, scientifically treated and incorporated with healing agents, making them the most perfect protective, healing and toilet gloves ever made.

These Gloves, being thin, tough, smooth, seamless and impervious, are particularly desirable for use of Undertakers and Embalmers in handling the dead, as a protection against blood poison and disease. Being made from pure gum they are very thin and do not interfere with the most delicate work. It is through the contact of the hands of the operator with a dangerous subject that blood poisoning or disease is acquired; hence, no corpse should be handled without the protection of a pair of these gloves.

In the household their uses are varied, and their value incalculable. Ladies can beautify their hands by wearing them at night; can remove wrinkles, callouses, tan, sallowness, freckles, etc.; cure chapped hands in one night.

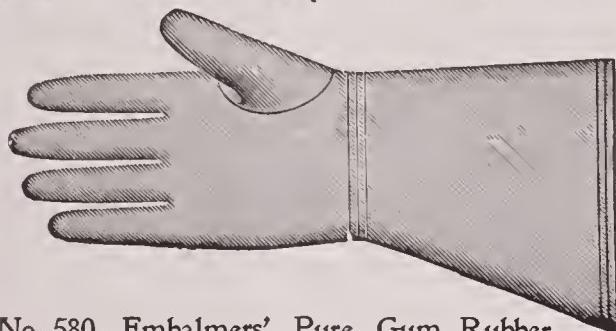

Measurement—Give exact circumference between thumb and knuckles without compressing the hand, in inches; this will be the size needed.

No. 597, Heavy Weight, Thumb	Price, .10
No. 598, Heavy Weight, Set of three	Price, .25

These Cots are heavier than the Tissue Cots and are preferred by many. Sold singly or in sets of three.

CHAMPION TISSUE FINGER COTS

Should be used in every operation (unless gloves are worn), especially as a protection to fingers having a cut or sore that would otherwise be exposed to danger of blood poisoning.

These cots are smooth, thin, tough and do not obstruct the sense of touch a particle. Made from the finest old Para rubber, they are especially adapted to all purposes where the old style heavy and clumsy cots are inadequate.

They should never be pulled on or off the finger, but unrolled onto the finger, and rolled off the finger.

Put up one dozen in a wooden box with powder.

*No. 599, One Dozen, Champion Tissue Finger Cots..... Price, \$0 50

ORDER ONLY BY NUMBER. SPRINGFIELD, OHIO.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

CHICAGO, ILL., Jan. 8, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have used your fluid for a number of years. Have also used other fluids which so often disappointed me that I came to the conclusion that your fluid was the best, as it has not failed to do everything it is represented to do.

Yours truly. F. G. SPREYNE.

CARLISLE, PA., Jan. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I am only satisfied with proper work and proper tools, and then I know, when I have a good reliable fluid, that I can rest easy; and if a patron comes to me and says he "thinks a body is not keeping," I always tell him to "go home and rest easy. I use Champion Fluid and the body will keep satisfactorily." Which is true.

Yours very truly, A. B. EWING.

PROVIDENCE, R. I., Dec. 28, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have been using Champion Fluid for the past two years, and find it a very superior article, and the results from its use have been highly satisfactory.

Yours truly, JOHN E. LYNCH & CO.

WATERLOO, N. Y., Jan. 1, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: After using Champion Fluid a number of years, and in that time having had occasion to test it in the hardest cases an Embalmer comes in contact with, I am free to say that it can't be beat as an all-around fluid. It is a fine bleacher, which is an invaluable feature in an embalming fluid, and which few possess. Yours very truly,

S. J. GENUNG & SON.

NORTHWOOD, IA., Jan. 22, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Will say that we have used your fluid with the best of results. As a bleacher it cannot be beat. We kept bodies perfectly in the hottest weather with your Champion.

Yours truly, E. AMUNDSON & SON.

ELMER, N. J., March 27, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Please ship me at once one barrel of your fluid. I have used it for years, and in that time have only had five bodies preserved by ice. I have tried nearly every kind of fluid, and want none better than the Champion. Can always guarantee success if the work is properly done.

Respectfully, H. T. BAKER.

ST. MARY'S, O., Jan. 14, 1896.

CHAMPION CHEMICAL CO.

Dear Sirs: I have had some very bad cases which I kept perfectly natural, one a lady near Celina, O. I told the parties that I could not keep her, as once before I had a similar case, and failed (but did not use Champion that time). This case I had in a splendid state of preservation with Champion. Have more confidence in it than in any fluid on the market. Very truly yours, G. B. VORE.

SHICKSHINNY, PA., Jan. 4, 1896.

CHAMPION CHEMICAL CO.

THE CHAMPION CHEMICAL CO.

ORDER ONLY BY NUMBER.

SPRINGFIELD, OHIO.

THE CHAMPION CHEMICAL COMPANY, SPRINGFIELD, OHIO.

ANTHONY, R. I., Dec. 26, 1895.

CHAMPION CHEMICAL CO.

Dear Sirs: Champion Fluid has never failed with me to do its work as a preserver or bleacher or in any respect. It is very pleasing fluid to use. Yours truly,

BYRON READ.

DULUTH, MINN., Feb. 15, 1896.

CHAMPION CHEMICAL CO.

Dear Sirs: We have been using your Champion Fluid for the last five or six years. It has the drying qualities that leave the skin in its natural and velvety appearance. We have used your fluid all through this fever epidemic. We have shipped a great many cases out of the city and have not received one complaint, and we have had some pretty bad cases. As for arterial work I claim two quarts of Champion Fluid sufficient, with the cavities well treated, to carry a corpse from here to California, and keep in a perfect state of preservation, and for money I can prove what I say.

Yours very truly,

FRED BAYHA, OF BAYHA & Co.

WEST PHILADELPHIA, PA., Dec. 18, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used Champion Embalming Fluid for several years, and always with satisfactory results. Can recommend it as an excellent bleacher and equally as good a preservative. Yours respectfully,

EUGENE G. YERKES.

WEST JEFFERSON, O., Jan. 10, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Champion Fluid embalms and no mistake. We did not lose a case with Champion during the hot weather of last summer. Yours very truly,

HOWARD BROS.

ELWOOD, IND., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Having used the Champion Embalming Fluid for three years, I can cheerfully recommend it as the finest fluid on the market. After using Champion Fluid I can sleep with ease and without fear of having my work to do over. I can recommend Champion to any one.

Respectfully yours,

CARNA WILLIAMS, with J. R. WILLIAMS & Co.

FAIRFIELD, IOWA, Dec. 14, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I believe the Champion Fluid to be the most powerful, yet the easiest fluid to handle of all fluids. We never allow our stock to be without it. Have a 20-gallon keg not tapped in the house now. Respectfully,

G. B. BAKER, of JUNKIN & BAKER.

MARIETTA, PA., Dec. 30, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I can truthfully say that during the five years I have used your Champion Fluid I have had perfect success in each and every case, and as my record is the largest in this place, would use nothing but a reliable fluid, which is the Champion.

Yours truly,

JACOB LIBHART.

CHARLOTTE, N. C., Dec. 16, 1898.

CHAMPION CHEMICAL CO.

Gentlemen: I can truthfully say that I have never been able to get as good results from other fluids as I have from the use of Champion; also that as long as I can get your fluid will use no other. Your Champion Friend,

HARRY J. BROWN, Embr. for J. M. HARRY & Co.

Embalmer's Sundries

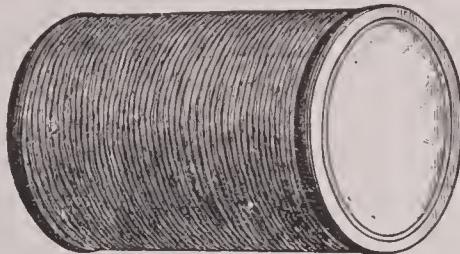

Absorbent Cotton is used in dropsical cases to absorb the water escaping out through the punctures made by the leecher. It is also used to fill up the opening where an artery has been raised. It will absorb the temporary leakage of some smaller branch of the artery, after the operation is finished, and before stitching up the skin. It is also used in padding the cheeks of persons whose features present a sunken emaciated appearance. It is superior to cloth to cover the face, as it is lighter.

No. 624. One-half pound package.....	\$0 25
No. 625. One pound package.....	40

No. 626, Lintine. This is a superior preparation of absorbent cotton, made into sheets of uniform thickness and has the absorption qualities of a sponge. When saturated with fluid and applied to the face, the bleaching process is accomplished with but few applications, on account of the length of time "Lintine" will hold moisture. Applied to the face of body being shipped, it reaches its destination with a moist, fresh appearance, and the friends are pleased. In this connection alone it is invaluable to any undertaker. It readily accommodates itself to the form of the features, so that every part of the face, hollow or prominent, comes equally in contact with the fluid, and all is bleached. "Lintine" is also indispensable as an absorbent in dropsical cases. Per pound roll, 15 in. wide by 13 yds. long.....Price, \$0 70

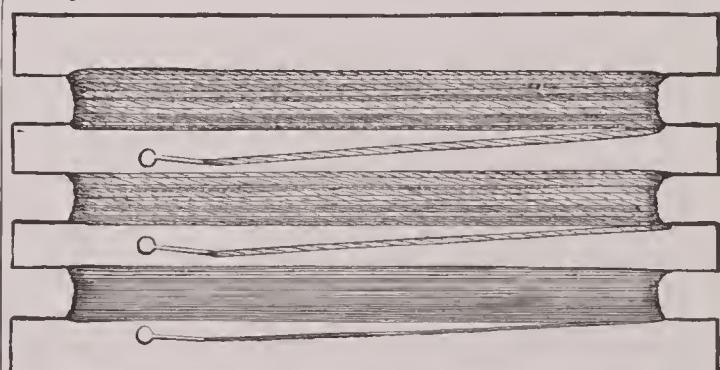

No. 627, Surgeon's Linen Thread. Used to sew up incisions. Per spool.....Price, \$0 10

ORDER ONLY BY NUMBER.

No. 628, Adhesive Plaster. Used for closing the wound made by an incision, and concealing the sewing of a wound. Per roll of 10 yards, 2 inches wide.....Price, \$0 75

No. 629, Surgeon's Silk, White. Used to sew up incisions. Three sizes on each card.

Price, \$0 15

DUNMORE, PA., Feb. 24, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I take pleasure in saying that I have used your fluid, and can truthfully say that I find it to do all you claim for it. I have had some very difficult cases, and been successful every time. Yours respectfully.

T. P. LETCHWORTH.

CHAMPION CHEMICAL CO.

Dear Sirs: In the past fifteen years I have used several kinds of fluid. I consider the Champion A No. 1 Fluid. Never had a failure while using it. Yours truly,

URIAH HILL.

URIAH HILL

LINCOLN, ILL., Dec. 26, 1895.

CHAMPION CHEMICAL CO.

Dear Sirs: In the past fifteen years I have used several kinds of fluid. I consider the Champion A No. 1 Fluid. Never had a failure while using it. Yours truly,

URIAH HILL.

PLATTSBURG, N. Y., Dec. 23, 1895.

CHAMPION CHEMICAL CO.

Dear Sirs: Your last shipment of Embalming Fluid arrived in due season, and I must confess that of all kinds I have used for embalming purposes the Champion Embalming Fluid is far superior to any. When in want of more I shall certainly order Champion, and none other.

Yours respectfully, EUGENE BROWN.

APOLLO, PA., Nov. 14, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Your fluid has always given us the best results. Have used it for several years, and cannot speak too highly of its merits as an all-around fluid.

Yours truly, N. H. GOSSER.

SNOHOMISH, WASH., Feb. 17, 1896.

CHAMPION CHEMICAL CO.

Dear Sirs: I have used Champion Embalming Fluid in some very difficult cases, and have found it just as represented, a good bleacher and preserver, and I most heartily endorse it.

Respectfully,

GEORGE BAKEMAN.

DEXTER CITY, O., Dec. 11, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your fluid and have given it some very severe tests, and it gives better results than any other fluid we ever used. It will not soil the clothing, carpets or furniture as some fluids do. For all purposes we think the "Champion" surpasses them all.

Yours respectfully, J. W. HEADLEY & SON.

N. H. GOSSER

GEORGE BAKEMAN

Yours truly, B. L. VORE.

DILLSBURG, PA., Dec. 25, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: We used your fluid for several years, and will say we have always had success with it, and do not hesitate to recommend it to the trade as an excellent fluid.

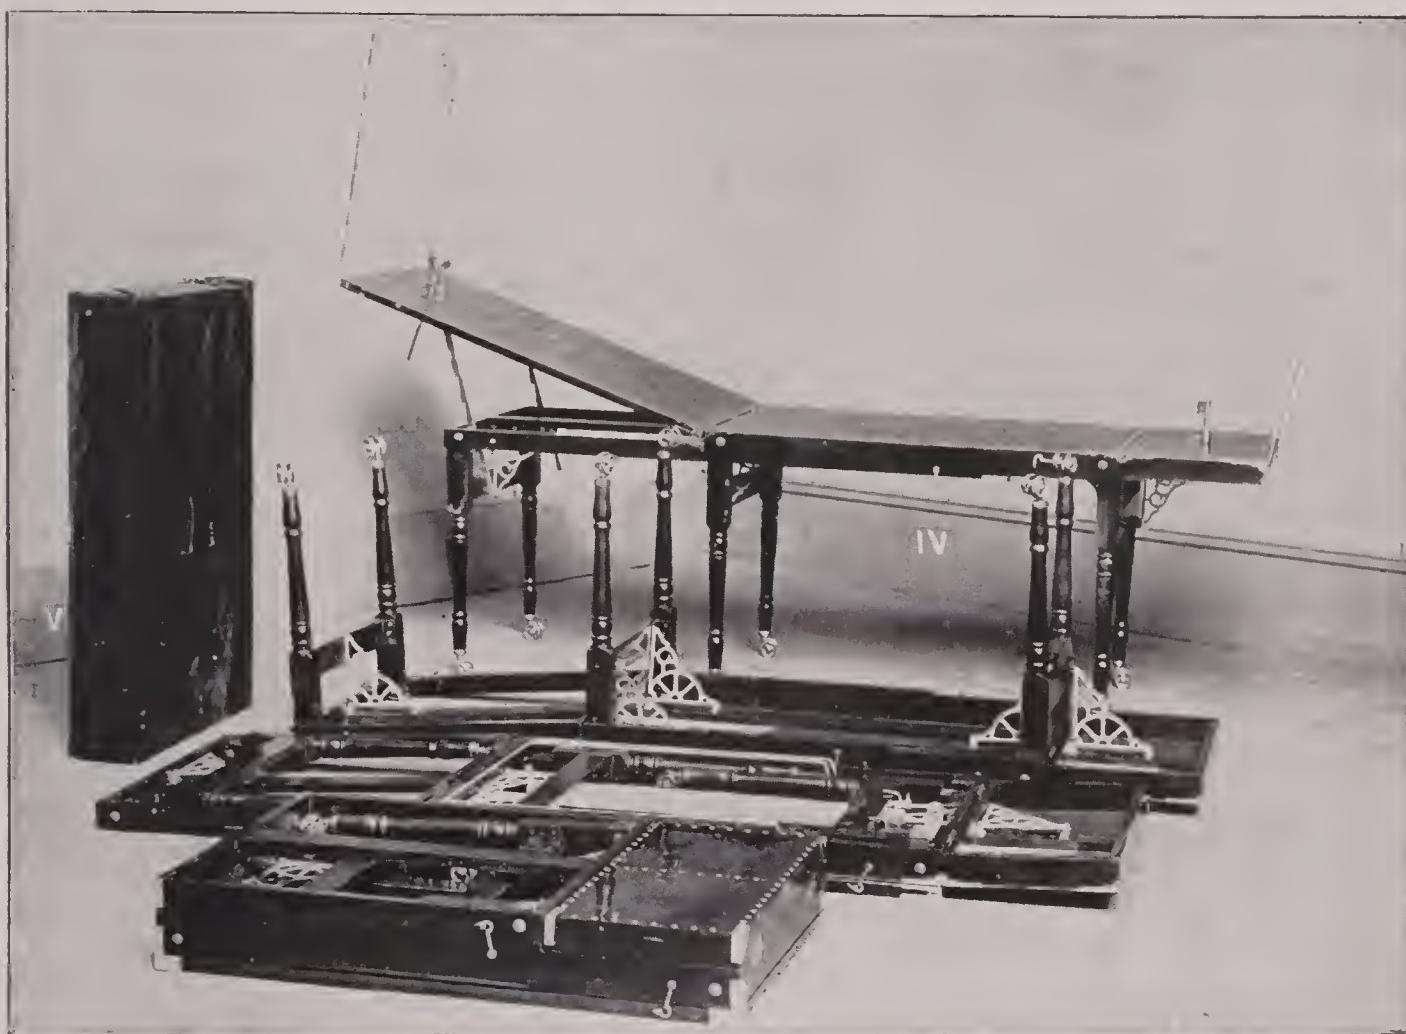

Yours respectfully,

KLUGH & CO.

B. L. VORE

Blood's Improved Patent Embalming Board

The construction of **Blood's Improved Patent Embalming Board**, its many advantages and neat appearance, whereby the most satisfactory service can be rendered, is the result of an extended practical experience. So much cannot be said in favor of, nor be claimed for, any other board. It is shipped on approval, freight prepaid, and guaranteed to prove, by due trial, to be just as represented.

It folds up in a compact form, 19 by 31 inches, convenient to carry under the arm, and can be transported on the street or in any conveyance without any one surmising its use. It has six legs and double wheel nickel-plated castors. It will support any required weight, and **one person can move it with a body from one room to another.**

Only one style is required, as one board can be used for all sizes up to 6 feet 3 inches. If a short board is required the foot end can be folded down.

THE BOARD CAN BE RETURNED IF NOT JUST AS REPRESENTED.

PRICE LIST

No. 630. Blood's Embalming Board, with Canopy supports, six double wheeled nickel-plated castors, nickel-plated head and foot rests, automatic braces and corner protections, with oil-cloth sheet and block canvas outside cover	\$23 00

B. NEFCY.

YORK, PA., Nov. 12, 1895.

CHAMPION CHEMICAL CO.

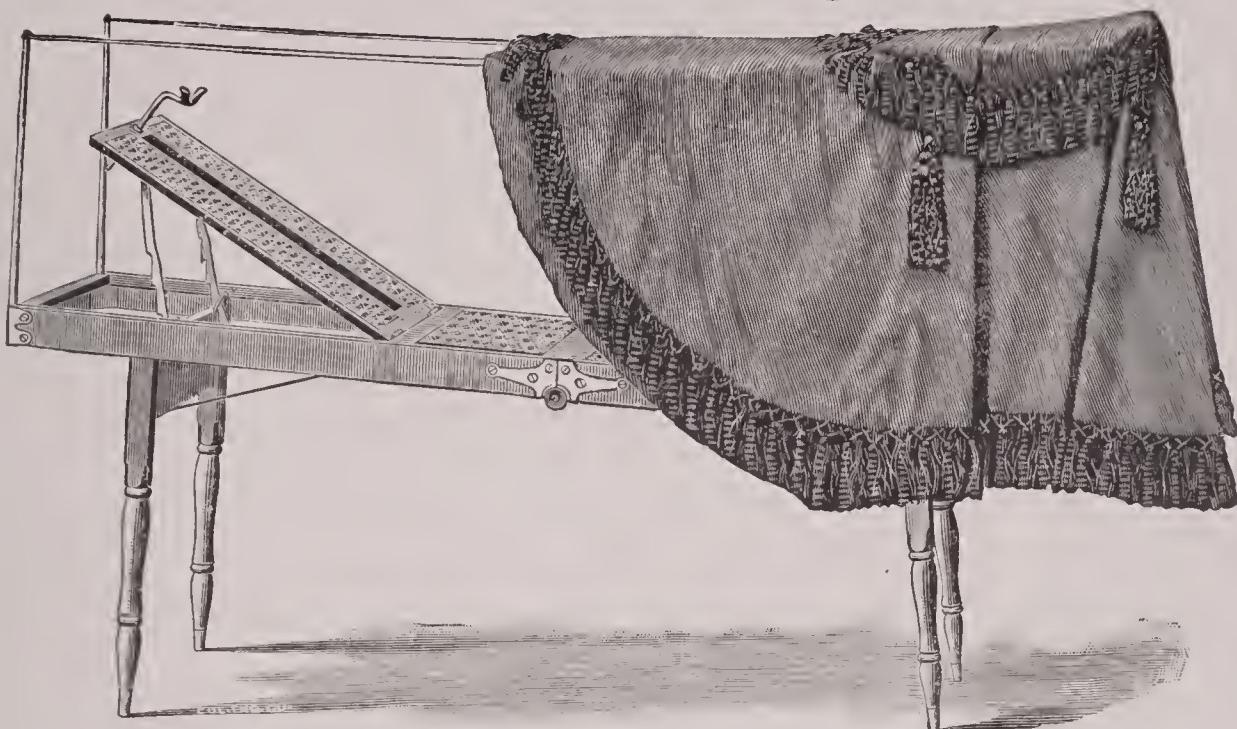

Gentlemen: We will always give credit to what we find worthy of credit, and will say Champion Fluid as a bleacher and preserver has no superior.

Respectfully yours,

WM. DENUES & SON.

B. NEFCY

Climax Embalming Table

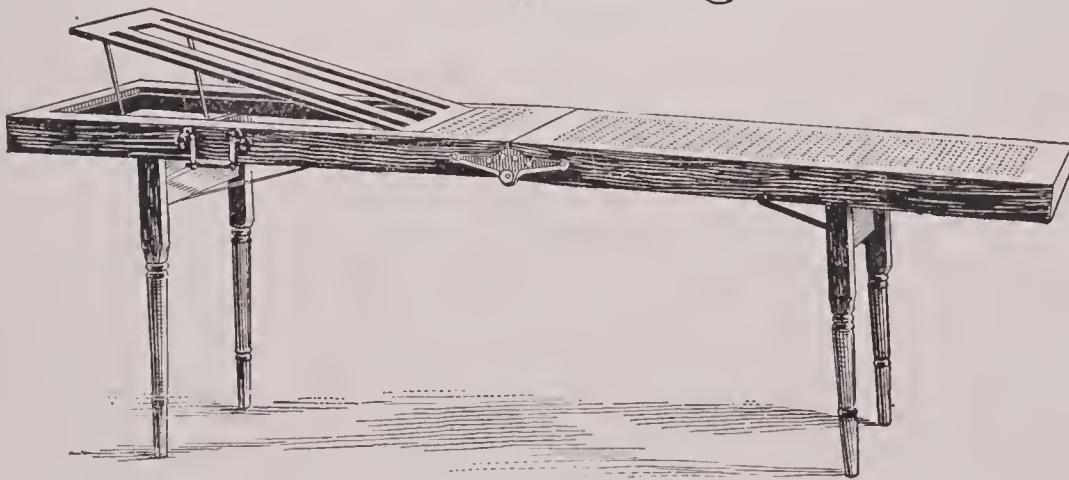

The **Climax** is one of the most extensively used Embalming Tables on the market, and has the endorsement of thousands of the best Funeral Directors of this and foreign countries. It is simple in construction, light to handle, easy to operate and more durable than any other style. For removing bodies from one room to another, carrying them up or down stairs, it is excelled by none.

These Tables are made of well-selected black walnut or oak, and finished in hard oil. The canopy is made of fine white goods, with fringe and tassels, and easily arranged so as to hang gracefully over the Table. In the accompanying cut you will notice: first, that the head elevation can be raised to about forty-five degrees; second, that the slot in the head elevation allows an easy method of placing a shroud on the body without turning over; third, that the tape slides are so arranged that any part of the canopy may be removed without soiling.

No. 640,	Length, 6 ft. 2 in.	Width, 20 in., including White Muslin Canopy	Price, \$23 00
No. 641,	" 5 ft. 8 in.	" 18 in., "	" 22 00
No. 642,	" 4 ft. 6 in.	" 16 in., "	" 18 00
No. 643,	" 3 ft. 6 in.	" 15 in., "	" 18 00

Terms: 90 days; 5 per cent. cash 30 days.

Excelsior Embalming Table

The **Excelsior** is intended as a "second best," though there never before has been as good an Embalming Table put on the market, as this one, for the money. It is after the style of the Climax, though not as finely finished. It is strong, neat and reliable. Japanned hinges.

No. 645,	Length, 6 ft. 2 in., without Canopy	Price, \$12 00
No. 646,	" 6 ft. 2 in., with Canopy	" 14 00

Terms: 90 days; 5 per cent. cash 30 days.

CHAS. J. ANDRES

CHAMPION CHEMICAL CO.

Gentlemen: Andrew Wehrle, a prominent wine merchant, proprietor of the Golden Eagle wine cellars, Middle Bass Island, Lake Erie, died January 12. I embalmed the body, using Champion Fluid, after which it laid in state in a vault in this city, where it was viewed daily. At least a thousand people looked upon the remains during this time, and its life-like appearance was generally and favorably commented upon. The regular funeral took place April 12 from the family residence on Middle Bass Island, and the body was in a perfect state of preservation. I have tried almost all the best fluids on the market, but am well pleased with Champion, and will now use it to the exclusion of all others.

Yours very truly, CHAS. J. ANDRES.

COLUMBIA, Mo., Nov. 21, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have used the Champion Embalming Fluid and find it as good as any I ever used. Yours, etc., G. F. TROXELL.

MIFFLINTOWN, Pa., Nov. 14. 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I will say this, as to my experience in using fluids, that The Champion leads them all in the way of preserving and keeping remains. It has given entire satisfaction to my trade, having used same for a number of years.

Respectfully yours, W. F. SNYDER.

DUBUQUE, Iowa, July 21, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I am not in the habit of writing testimonials, but I must say this for your fluid: I have been using Champion Fluid for some time, and it has given me very good satisfaction. Respectfully yours,

E. P. SPAHN.

LINCOLN, Neb., July 20, 1896.

CHAMPION CHEMICAL CO.

Dear Sirs: "Whenever a man does a thing that's white, credit him fair and right." Speaking from the above standpoint I am free to say that The Champion Embalming Fluid is unexcelled by any fluid now on the market. When the work is properly done it is always absolutely reliable; that is all any Embalmer wants or has need of, in a fluid.

Yours very truly,

E. T. ROBERTS, OF GUILE & ROBERTS.

DAYTON, Iowa, July 21, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: Champion Fluid has given me the best of satisfaction, and I recommend its use to all Funeral Directors. To use it once is to keep on with "The Champion."

Yours, etc.,

C. E. LINDQUEST.

MECHANICSBURG, O., July 21, 1896.

Truly yours,

E. W. WILSON.

A. H. FLEMING

T. A. HAUGEN

CHAMPION CHEMICAL CO.

Gentlemen: We have used Champion Fluid for some time, and will say that we have always had very good success with it, and pronounce it a good fluid.

Respectfully yours,

T. A. HAUGEN.

H. C. SMITH

CHAMPION CHEMICAL CO.

Gentlemen: Your fluid is all that you claim for it. If an Undertaker understands his business Champion Fluid will do the rest. Last August I embalmed a lady who died of dropsy, and kept her several days, and when we buried her she was in splendid shape. She weighed two hundred and fifty pounds in health, and was twice her size when she died. I could mention several other bad cases where results were just as good. Champion Fluid can't be beat as a preserver and bleacher. Yours very truly,

H. C. SMITH.

Champion Improved Body Carrier

PAT. AUG. 24, 1894.

New, Useful, Novel. Heavy Bodies Carried With Perfect Ease

Every Funeral Director Knows what a difficult task it is to remove a body from a bed or cooling board and carry it from one room into another, or from a room that is up four or five stories in a business block, and carry it down several flights of stairs. There is an easy way to do it and that is by means of the Champion Body Carrier.

One Great Advantage in the Champion Body Carrier is the fact that it is very easy for two persons to remove a heavy body from a bed to a cooling board, and from a cooling board to deposit the remains into a casket, or to carry a body up or down several flights of stairs.

Another Very Important Advantage in Favor of the Champion Stretcher is that with it bodies can be lowered into the casket without handling them with the hands, and the lining is not disturbed in the least.

No. 690, Carrier Complete, in a Substantial Canvas Case Price \$10 00

TERMS: 90 days; 5 per cent. cash 30 days.

ODEBOLT, IOWA, July 18, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: This week we have had two bodies to care for, an old gentleman, aged 89, and a young man aged 29. Notwithstanding the weather was extremely hot, being 106 in the shade, with the use of Champion Fluid, we had no trouble to keep the bodies in the most perfect condition. As a bleacher it is the best we have ever used. We shall continue to use it. Also the Pump we purchased from you works perfectly. Yours very truly,

J. W. APPLEYARD.

PORT LEYDEN, N. Y., Dec. 23, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have given your Champion Fluid a fair trial, and am perfectly satisfied with the results—none better. Yours respectfully,

D. M. COE.

The Improved Boyd Patent Burglar-Proof Grave Vault

The Above Cut Represents the Vault Closed and Locked.

V V V

THE BOYD VAULT IS ABSOLUTELY AIR-TIGHT AND WATER-PROOF.

The broken section shows an interior view, disclosing one of the six **heavy steel spring locks** with which the vault is provided; also the **cement groove** formed by the heavy angle iron, which extends upward three inches outside the top casing, and the corresponding flange extending upward inside the top casing.

The vault can be made **absolutely air-tight and water-proof** by filling this groove with mineral or ordinary Portland or Louisville Cement, which renders its use indispensable when interments are to be made in damp soil where the grave is likely soon to become filled with water.

In those places where it is necessary to bury in shallow graves on account of water, the vault, being cemented air-tight, is particularly adapted to prevent the escape of gases and other poisonous matter, thus preventing the spread of contagious diseases.

For Further Description and Price List, See Opposite Page

The Improved Boyd Patent Burglar-Proof Grave Vault

THE GREAT GRAVE ROBBER FOILER

Over 40,000 Human Bodies Mutilated Every Year on
Dissecting Tables in Medical Colleges in the United States

No More Desecrating the Graves of Our Dead
The Boyd Grave Vault is absolutely Safe *

The subject of protecting our loved ones when laid in their (supposed) "last resting place," is one that has long agitated the public mind, but not until the introduction of the **Boyd Grave Vault** was the problem solved.

The Improved Boyd Vault is made of a steel casing, firmly riveted together, which forms the top; the bottom is composed of heavy angle iron for framework and a steel plate for bottom sheet, all being most thoroughly riveted together.

The rivets and bolts are concealed by additional iron, so that it would be absolutely impossible to locate their exact position, even if the ghouls should go to the trouble of doing the additional amount of excavating that would be necessary to reach this portion of the vault.

To make the vault Burglar Proof the base is provided with **six heavy steel spring hooks**, which attach themselves to lugs on the inside of the top casing as it is placed in position.

When closed it is impossible to open the vault, except to cut the top casing entirely open, which would require a mechanic to work at least twenty-four (24) hours with the best of tools, which, of course would render any attempt at grave robbing futile.

The ends of the vault are made of the **best malleable iron**, are handsomely paneled and have raised letters finished in gold bronze.

The vaults are thoroughly painted both inside and outside, and finished in imitation of rosewood and ebony.

The top of the Boyd Vault rests solidly on the bottom, and being convex in shape, the pressure of the earth is equally distributed on all sides, which prevents the possibility of its being crushed when the grave is filled.

The Boyd Vault protects both the casket and body from dampness, mould and decay, and from burrowing animals and vermin.

WESTERLY, R. I., Dec. 26, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: From what experience I have had with Champion Fluid, I find it does all you claim for it, and I shall continue to use it. I think it is an excellent Fluid.

Yours truly, CHARLES H. GAVITT.
OF THE H. B. GAVITT CO.

INDEPENDENCE, Ia., Jan. 7, 1896.

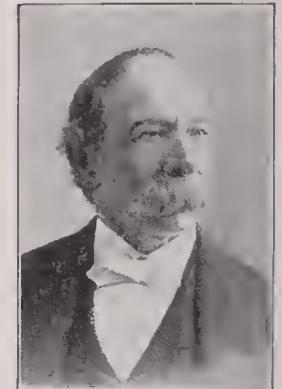

CHAMPION CHEMICAL CO.

Dear Sirs: I have used your Fluid in large quantities for some years with the most remarkable success. I have put it to many extraordinarily severe tests with the greatest satisfaction in every instance. Respectfully yours,

P. C. HEEGE.

P. C. HEEGE

HENRY DIMLER

CAPE MAY C. H., N. J., Jan. 8, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: I have been using your Champion Fluid for three years, and find it the best I have ever used. I have never lost a case when using Champion Fluid. It is undoubtedly the best bleacher on the market to-day.

Yours very truly,
CHARLES F. GARRETSON.

EMMETSBURG, Ia., Jan. 15, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: As far as I have used Champion Fluid, I think it is O. K. I believe that there is none better made.

Yours truly, HENRY DIMLER.

G. W. HUMMER

H. A. PLETCHER

C. REPPERT

COLUMBUS, O., Dec. 9, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: I have given your Fluid repeated trials and thorough tests during the hottest weather and find it all it is claimed to be and equal to all emergencies.

Respectfully, H. A. PLETCHER.

FRENCHTOWN, N. J., Aug. 8, 1895.

CHAMPION CHEMICAL CO.

Gentlemen: Please send me ten gallons of Champion Fluid. During the hot spell in June, 1895, I kept a body 107 hours, and at the expiration of that time the body was in perfect condition. I used the Champion, and do not hesitate to say I have had better results with Champion than any other Fluid, and I have used a great many kinds.

Respectfully, G. W. HUMMER.

BELLE VERNON, Pa., Jan. 1, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have used your Fluid and find that it gives the best of results, and can recommend it to all wishing a good Fluid. Yours respectfully,

C. REPPERT & SON.

BRAINERD, MINN., July 11, 1896.

CHAMPION CHEMICAL CO.

Gentlemen: We have tapped the keg and tested the Fluid, doing both cavity and arterial work with it. A Fluid that will keep a body sweet and nice for three or four days by cavity injection alone, when the mercury is 90° in the shade, is a great boon to the majority of undertakers. I believe your Fluid will do this.

Yours truly,

A. E. LOSEY.
FOR LOSEY & DEAN.

A. E. LOSEY

The New Baker Patent Burglar-Proof Grave Vault.

The New Baker is made of the best quality **Heavy Cold Rolled Steel**, and heavy solid malleable iron ends, with sunken panels, and raised bronzed letters, artistically finished imitation rosewood and ebony. Small sizes in gloss white.

The New Baker is expensively built and substantially constructed, having heavy malleable iron bearings and braces on the inside, thus precluding any possibility of telescoping or crushing together, and will guarantee it is impossible to damage a casket upon the inside.

The New Baker has recently been greatly improved by adding a **New Patent Cement Flange**, thus enabling the vault to be made **Air and Water-Tight**, in connection with its burglar-proof features. (Louisville Cement, or any cistern cement, can be used.)

The New Baker is not cumbersome to handle, the weight being evenly divided, and having eight large, handsome bar drop handles made of malleable iron, thus making it convenient to lower the bottom into the grave before lowering the casket.

The New Baker has six steel springs with malleable iron heads, and being supplied with malleable iron corner and side guides upon the inside, no trouble is ever experienced in operating the vault, which makes it absolutely burglar proof, successfully defying the human ghoul.

THE LEHMAN HEATER

It Solves the Problem of How to Keep Warm 12 Hours in the Dead of Winter for Only Two Cents.

Only Heater of the Kind.

Smokeless
And Odorless

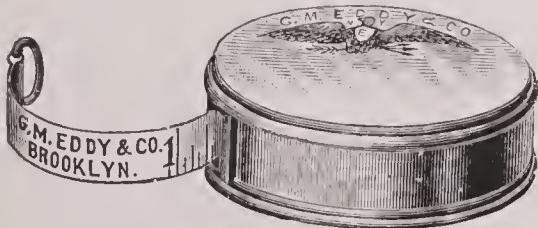

No Danger From Fire.

Comfort and pleasure are secured by Placing a Lehman Heater, with its prepared coal at a glowing heat, in its drawer, as a foot rest in the bottom of the carriage or sleigh when riding in winter. The heating material is specially prepared coal, each piece being $7\frac{1}{4} \times 2\frac{1}{2} \times 1\frac{1}{4}$ inches. The Heater is a metallic case $7\frac{1}{4}$ inches wide, $3\frac{1}{2}$ inches deep, made in 14 and 20 inch lengths. An asbestos cloth lining is placed between the carpet covering and the Heater, making it perfectly safe. Full directions with each Heater.

Diagrams of the Vascular System

These Diagrams, one showing the Arterial System, and the other the Venous System, have been carefully arranged according to Gray's Anatomy. They are neatly printed in colors, in the form of maps or hangers, size 25 by 38 inches, so that they can be hung in a convenient place, and are always ready for freshening up the memory and reviewing for examination. Every student of embalming should possess a pair of these diagrams.

PRICE

*No. 778 Pair Arterial and Venous Diagrams \$1 00

NICKELED PUMP HOLDER

Provided with set screw clamp for fastening to cooling board. Made to fit any style hard rubber pump; for small size pumps use a piece of felt or heavy cloth between pump and holder. On account of the easy manipulation of Champion Pumps a holder is not needed with them, though some operators use it on account of previous habits.
*No. 780, Full Nickled Price, \$1 25

Metallic Grip Compartments

For use in Champion Grips. Will fit all styles, A, B, C, and D.

Set of four small for bottles and one larger for sundries.

These metal compartments are far superior to any other style. If a bottle breaks or becomes uncorked and liquid spills, they will catch and retain it, and thus protect the inside of the grip. They can also be used in place of a hard rubber basin when desired. Will go in any grip having an inside measurement of $8\frac{1}{2} \times 14\frac{1}{2}$ inches, which is the space occupied by the set.

Champion Embalming Needles with Cut-Off.

Hard Rubber, Metal Lined, with Steel Point Nickeled.

The Cut-Off with our Patent Arterial Tubes has proven so useful and popular that a demand was made for a similar Cut-Off with our line of Hard Rubber Embalming Needles. We therefore take pleasure in presenting same to the trade, believing that their desirable points will at once suggest themselves to all. Very often it is necessary to leave the needle remain in the body for a second injection; with this permanently attached Cut-off it is always ready for immediate use for closing the Needle. The Cut-off also allows the Embalmer to regulate the flow of fluid or completely cut it off at will. Do not attempt to turn Cut-off before removing the cleaning rod.

We furnish every style of our popular Hard Rubber, Metal Lined, Embalming Needles with the Cut-off, as shown below.

Champion Diamond-Pointed Cardiac Needles

The Champion Diamond-Pointed Cardiac Needle is the result of long experience and careful study and is the acme of perfection for the purpose for which it is especially intended—the aspiration of blood from the body by tapping the heart.

The point, which is extra long, is provided with six slots, so arranged as to best serve its purpose, namely to be wholly within the heart when that organ has been properly tapped. It is made of best tempered steel, allowing it, (when kept in proper condition) to make a clean, smooth cut.

This style of **Needle**, while intended principally for the object mentioned, is a superb instrument for any other use to which a trocar is ever put, and is consequently preferred by many to any other style. Hence we make it in all the regular lengths and styles as shown below. We would, however, caution against the use of an instrument intended for tapping the heart for any other purpose, on account of the necessity of keeping it perfectly sharp for this object.

ORDER ONLY BY NUMBER.

Champion Patent Arterial Tubes and Cut-Off

These Tubes are a late invention for which we hold letters patent. They possess many features of value over the old styles of arterial tubes and their use gives universal satisfaction. With them the flow of fluid can be instantly checked, regulated or completely arrested. When the arteries are filled, by closing the Cut-Off, the Tube can be removed without danger of any fluid leaking and soiling the clothing or carpet. When it is necessary to leave the Tube in the artery for a second injection, no thimble is necessary; simply close the Cut-Off. The Cut-Off is detachable, and will fit either size Tube. Each Tube is furnished with a light leather washer.

PAT.
JUNE 8,
1897

*No. 516. Set of 3 Tubes, large, medium and small, and Cut-Off, in neat box . . . \$1 00

Champion Six-Inch Arterial Tubes and Cut-Off

The Champion Patent Arterial Tubes are also furnished in six-inch lengths, for the use of those preferring longer tubes. They are made perfectly smooth, and taper the entire length, allowing them to be inserted into the artery any desired distance. They are used with our Cut-Off No. 506, and are sold either separately or in sets of three.

*No. 507½.	Large, 6 inches	Price, \$0 35
*No. 508½.	Medium, 6 inches	" 35
*No. 509½.	Small, 6 inches	" 35
*No. 516½.	Set of 3 Tubes and Cut-Off (No. 506) in neat box	" 1 25

Champion Hard Rubber Connecting Cut-Off

The neatest and best article of the kind on the market. By its use the flow of fluid can be instantly regulated or completely arrested. Much preferable to Cut-Offs which close on the tubing and often greatly damage same.

*No. 568 Price, \$0 50

Champion Hardening Compound

A Powerful Deodorizer and Desiccator,
and an Excellent Preservative

The Champion Hardening Compound instantly destroys all offensive odors and rapidly absorbs all moisture from any putrid mass.

It will quickly dry, purify and render odorless cases of Gangrene, Cancer, Erysipelas, Abscess, Drowning, Burning, etc.

In Post Mortem Cases the Champion Hardening Compound is indispensable. When dusted freely over the internal organs and the walls of the cavities, it will dry and harden the parts and positively prevent putrefaction.

It is also invaluable in handling of disinterred bodies, which can be dried, hardened, deodorized and restored to a presentable condition by its use.

Remember the Champion is stronger than any other similar Compound, goes further, and consequently is cheaper. It is not affected by age, and is not injurious to the hands.

Full directions for using accompany each package.

.....CHAMPION HAND PROTECTOR..... AN ANTISEPTIC SALVE

For Prevention of Blood Poison.

Fragrant and Innocuous.

A Powerful Antiseptic, Disinfectant and Deodorizer.

THE BEST HEALING SALVE KNOWN TO SCIENCE

Champion Hand Protector is a preparation for anointing the hands as a protection from danger of blood poison. Without its use great risk is run of a protracted spell of sickness or possible death. Many serious and fatal cases of blood poison resulting from handling bodies of the dead are annually reported.

AN OUNCE OF PREVENTION IS WORTH MANY POUNDS OF CURE

Champion Hand Protector fills the pores of the skin, abrasions and cuts, and prevents blood and liquids from the corpse being absorbed into the system of the operator. It is also a protection from the poisonous effect of some fluids on the hands.

Remember there is no similar preparation, under whatever name it is sold, which equals the Champion Hand Protector. Use no other.

ORDER ONLY BY NUMBER.

BITHYMOL ✶ ✶ ✶

A Scientifically Prepared Disinfectant, Germicide and Antiseptic

Superior to Quin Hazel, Kosmos, Utopine, or any similar preparation.

Bithymol is invaluable for spraying purposes in cases of contagious or infectious diseases, to remove the offensive odor from dead bodies, or from sick rooms, etc. It is absolutely non-poisonous and does not stain fabrics of any kind. As a protection to operators it should be sprayed into the nostrils and mouth, and when brought in contact with the contagious diseases it may be taken internally in doses of one teaspoonful three times a day. It is a fragrant and powerful insecticide, destroying instantly all sorts of insects and vermin.

Bithymol will not leave a disagreeable odor peculiar to many other preparations.

The Atomizer furnished with **Bithymol** is one of the best made and will give excellent satisfaction. It should always be removed from the bottle when not in use, and the bottle corked.

*No. 809.	4 oz. bottle, without Atomizer	Price, \$0 50

CHAMPION DERMATOID

.... AND ANTI-MOULD

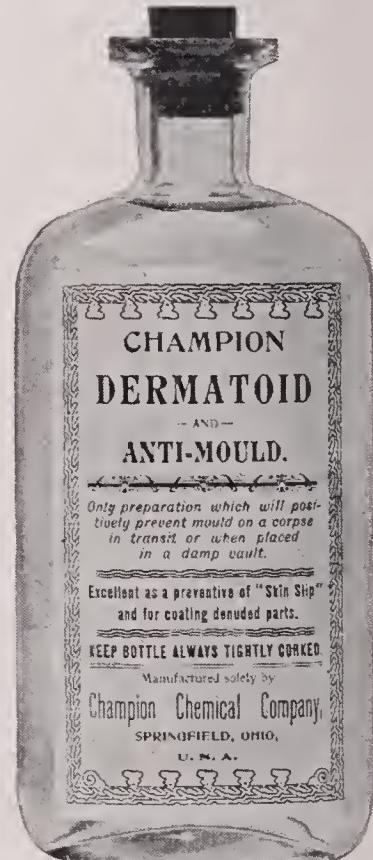

An invaluable preparation for several purposes.

It is the only preparation in the world which will positively prevent mould on a corpse in transit or when placed in a damp vault.

Applied in a thin layer to the face and hands of a corpse it prevents the slipping or peeling of the skin and preserves from the disintegrative influence of the atmosphere. Applied to the lips and eyelids they are bound firmly together. Applied to scars, excoriated and burnt surfaces, a new skin is formed, which conceals the denuded parts.

Keep the bottles always tightly corked.

No. 815. Price per bottle.....\$1.00

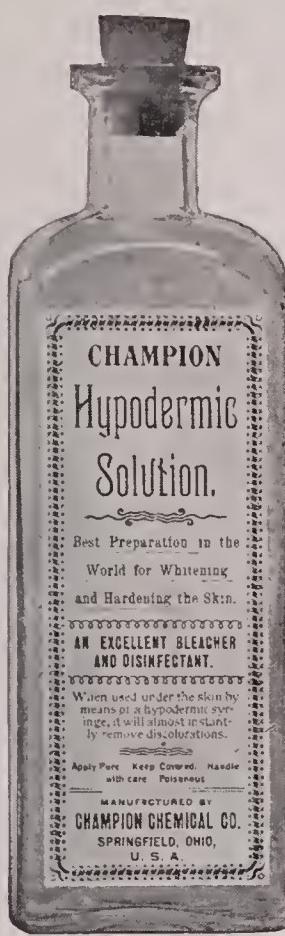

ROYAL

ROYAL MORT SOLVENT

This Solvent is designed to take the place of the razor in the preparation of the dead for burial. The Solvent is a dry powder and only wants mixing in a saucer of water. It is smeared on the face like soap lather, and it softens and dissolves the hair, so that it can be scraped off with a case knife, or washed off. One can holds enough for about twenty-five (25) operations.

No. 818. Per 4 oz. can Price, \$1.00

Champion Hypodermic Solution

Best Bleacher Ever Compounded
An Excellent Disinfectant

Best Preparation in the World for
Whitening and Hardening the Skin

The Champion Hypodermic Solution is a 95 per cent. alcoholic preparation of unequalled value to an Embalmer and Funeral Director. When used under the skin, by means of a hypodermic syringe, it will almost instantly remove discolorations.

When applied to the face with a sponge or wet cloth it preserves and restores the lifelike appearance to the corpse. Absorbent Cotton or Lintine saturated with the Hypodermic Solution and placed over the face for a short time, gives an excellent effect. It whitens and hardens the skin better than any similar preparation.

When used in erysipelas cases, it greatly modifies and improves the condition of the skin and disinfects the parts.

Apply pure in all cases. Always keep bottles covered from the light. Handle with care, as the preparation is poisonous.

No. 820. Per Pint Bottle..... Price, \$1 00

CHAMPION DISINFECTANT TABLETSFOR THE HANDS.....

These Tablets are a very convenient and effective form of disinfectant, a small bottle being carried in the vest pocket without inconvenience. One of the Tablets dissolved in sixteen ounces of water gives a solution of sufficient strength for all ordinary purposes. The hands should always be washed in a solution of this strength after an operation. This will remove the foul odor which usually clings to the hands. The Tablets are strictly non-poisonous.

No. 822. Per Bottle of 50 Tablets Price, \$0 35
No. 823. Three Bottles Price, 1 00

CHAMPION ANTISEPTIC LOZENGES

A PROTECTION AGAINST DANGER FROM
INHALATION OF CONTAGIOUS GERMS

Champion Antiseptic Lozenges should always be kept in stock by Funeral Directors, as they are often, as many have learned by sad experience, in danger of infection and contagion by inhaling the poisonous germs from a corpse or the sick room. No one can afford to take any chances when a preventive is provided at such reasonable expense. A box of Lozenges should always be carried in the vest pocket and a few of the Lozenges placed in the mouth and allowed to slowly dissolve in cases of danger.
No. 825. Per doz. Boxes Price, \$1 00

CHAMPION CAUTERIZER For Cauterizing Wounds Made in Embalming, Autopsies, etc.

Champion Cauterizer is a liquid put up in a drachm bottle with ground glass stopper, and enclosed in a hard wood box. When needed for use the stopper is removed and a small drop of the liquid is allowed to fall on the wound. The parts are instantly cauterized and danger from inoculation from the septic poison removed. Always keep tightly corked. Do not inhale the fumes.
No. 826. Per Drachm Bottle..... Price, \$0 25

No. 826

CHAMPION PASTILLES A Fragrant, Non-Poisonous Deodorizer and Efficient Disinfectant

Champion Pastilles furnish a fragrant form of deodorizer, which will also be found an effective disinfectant. Hydronaphthol is incorporated with aromatic resins, possessing antiseptic properties readily volatilized by heat. In burning, it is distributed throughout the apartments settling itself in imperceptible particles on the drapery, carpets, etc., from which it is gradually absorbed by the moisture in the atmosphere, thus affording a means of continued purification.

Tightly close the door before igniting the **Pastilles**, then withdraw from the room. After leaving it closed for an hour or so, give free ventilation. Clothing can be disinfected by leaving it in the room during the fumigating process. It is well to use **Pastilles** even when death results from a non-contagious disease, as it purifies the atmosphere of the room.

The **Pastilles** will also be found efficient in driving away flies, mosquitoes and other insect pests.

No. 830. Per doz. (in tin box)	Price, \$0 50
No. 831. Metal Holder for Pastilles	Price, each 25

SULPHUR CANDLES A Safe, Easy and Sure Fumigator

Sulphurous Acid Gas is probably the most powerful and effectual disinfectant for all ordinary purposes, and being a gas is more searching in its effects than solid or liquid agents; hence the convenience of these **Sulphur Candles**.

They are furnished in two forms, the larger candle, in a decorated tin container, holds one pound of sulphur, burns for about two hours, and is capable of yielding nearly twelve cubic feet of pure sulphurous acid gas, at normal temperature and pressure, which is generally considered sufficient for disinfecting 1,000 cubic feet of space.

The smaller candle is in a porous container, and as the efficacy of sulphurous acid gas for disinfecting purposes is greatly intensified by being generated in a moist state, and as the water comes into more immediate contact with the burning sulphur in this container, a better result follows. One of these candles yields fully one-third the quantity of pure sulphurous acid gas given off by the larger size candles, but by placing smaller candles in different parts of an apartment the process is quicker and more thorough, the oxygen in the air of the apartment being also necessary for the formation of the gas.

These candles afford the only safe means of burning sulphur, and thus destroy germs after deaths from infectious diseases, and in vacated apartments, etc.; also for disinfecting bedding, clothing and drapery; also in destroying the noxious vapors from sewers, cesspools, etc. They are authorized and used by Boards of Health both at home and abroad. They are easily lighted and continue to burn with such regularity that perfect combustion ensues, the production of sulphurous acid gas being gradual and its effects reliable. Place in a vessel of water before lighting.

PRICE
No. 835, Large size, in decorated tins, per doz
\$3 00
No. 836, Small size, in new porous container, per doz
1 20

CHAMPION FLESH TINTS

An Unequalled Preparation for Restoring the Natural Color to the Lips and Cheeks, and for Removing the Pallor of Death.

FLESH, WHITE, CARMINE, BLACK.

The Champion **Flesh Tints** is not a paint, but crayons or pencils, with which astonishing changes in the appearance of the remains can be made in a very short time. Every Embalmer and Funeral Director should always have a supply on hand.

No. 840. Per box, one pencil of each	Price, \$0 75
--	---------------

HYDRONAPHTHOL SOAP

This soap possesses high medicinal and disinfecting properties, and should be used in washing the hands after an embalming operation. It is also excellent for use in washing bodies in preparing them for burial.

No. 845. Per cake, in box	Price, \$0 35
No. 846. Three cakes, in box	Price, 1 00

CHAMPION CONQUERS

HEN pale and cold the friends we love are lying—
Death's speechless silence o'er them like a pall—
All answer to our pleading cries denying,
Whose wailing accents upon deaf ears fall,
How grievous is the thought of that corruption
So soon to seize on the beloved clay,
Whose putrid touch makes loathsome our conception
Of what our hearts held dearest yesterday.

The swollen lips that won our fondest kisses,
The purple hollows 'neath the sunken eyes,
The blue shade on the cheek where our caresses
Caused flush of a responsive love to rise;
The sickening odor sense of smell saluting,
The rapid progress of the gangrene's way—
Death's minions with their mighty chief disputing
Supremacy of claim to horror's sway—

Ere Mother Earth from our averted glances
Unto her breast has caught the crumbling dust,
And with the turf, above which sunlight dances,
Compassionately hides her sacred trust;
With what relief the anguished heart embraces
The knowledge science to the world supplies,
That **Champion Fluid** loathsome ness effaces,
Which the embalmer by his art applies.

It stays the work decay is executing,
Restores the lifelike hue to love so dear,
Retards the changes precious forms polluting,
And, as they were, preserves their semblance here.
We know Death of his prey may not be cheated—
That man who sprang from dust, to dust must go—
Yet his putrescent train may be defeated
By **Champion Fluid** in arterial flow.
And when, beneath the violets and daisies,
The treasures of our hearts are lying low,
No hideous thought, like Banquo's ghost, upraises,
Unwelcome head, its horrid mien to show.
But, as they were, we always may recall them,
Asleep, while waiting for that blessed day
On which the resurrection trump shall call them,
When all the shadows shall have fled away.

Minnie W. Baines-Miller.
